Forward-Looking Statements. This presentation and the accompanying discussion contain a number of estimates, forecasts, expectations, beliefs, and other forward-looking statements, which may include statements regarding future benefits of investing in Fannie Mae products, future macroeconomic conditions, future actions by and plans of the Federal Reserve, Fannie Mae’s future business plans, strategies and activities and the impact of those plans, strategies and activities. These estimates, forecasts, expectations, beliefs and other forward-looking statements are based on the company’s current assumptions regarding numerous factors and are subject to change. Actual outcomes may differ materially from those reflected in these forward-looking statements due to a variety of factors, including, but not limited to, those described in “Forward-Looking Statements” and “Risk Factors” in our quarterly report on Form 10-Q for the quarter ended June 30, 2023 and annual report on Form 10-K for the year ended December 31, 2022. Any forward-looking statements made by Fannie Mae speak only as of the date on which they were made. Fannie Mae is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, subsequent events, or otherwise.

No Offer or Solicitation Regarding Securities. This document is for general information purposes only. No part of this document may be duplicated, reproduced, distributed or displayed in public in any manner or by any means without the written permission of Fannie Mae. The document is neither an offer to sell nor a solicitation of an offer to buy any Fannie Mae security mentioned herein or any other Fannie Mae security. Fannie Mae securities are offered only in jurisdictions where permissible by offering documents available through qualified securities dealers or banks.

No Warranties; Opinions Subject to Change; Not Advice. This document is based upon information and assumptions (including financial, statistical, or historical data and computations based upon such data) that we consider reliable and reasonable, but we do not represent that such information and assumptions are accurate or complete, or appropriate or useful in any particular context, including the context of any investment decision, and it should not be relied upon as such. Opinions and estimates expressed herein constitute Fannie Mae’s judgment as of the date indicated and are subject to change without notice. They should not be construed as either projections or predictions of value, performance, or results, nor as legal, tax, financial, or accounting advice. No representation is made that any strategy, performance, or result illustrated herein can or will be achieved or duplicated. The effect of factors other than those assumed, including factors not mentioned, considered or foreseen, by themselves or in conjunction with other factors, could produce dramatically different performance or results. We do not undertake to update any information, data or computations contained in this document, or to communicate any change in the opinions, limits, requirements and estimates expressed herein. Investors considering purchasing a Fannie Mae security should consult their own financial and legal advisors for information about such security, the risks and investment considerations arising from an investment in such security, the appropriate tools to analyze such investment, and the suitability of such investment in each investor’s particular circumstances.

Fannie Mae securities, together with interest thereon, are not guaranteed by the United States and do not constitute a debt or obligation of the United States or of any agency or instrumentality thereof other than Fannie Mae.

Opinions, analyses, estimates, forecasts, and other views of Fannie Mae’s Economic & Strategic Research (ESR) group included in these materials should not be construed as indicating Fannie Mae’s business prospects or expected results, are based on a number of assumptions, and are subject to change without notice. How this information affects Fannie Mae will depend on many factors. Although the ESR group bases its opinions, analyses, estimates, forecasts, and other views on information it considers reliable, it does not guarantee that the information provided in these materials is accurate, current, or suitable for any particular purpose. Changes in the assumptions or the information underlying these views, including assumptions about the duration and magnitude of shutdowns and social distancing, could produce materially different results. The analyses, opinions, estimates, forecasts, and other views published by the ESR group represent the views of that group as of the date indicated and do not necessarily represent the views of Fannie Mae or its management.

Single-Family Business and Credit Risk Management
Our Size and Scale: Single-Family

The U.S. mortgage market is dominated by the 30-year Fixed-Rate Mortgage (FRM)

Fannie Mae Issuance by Product Type¹

- Fannie Mae provided approximately $157 billion in Single-Family mortgage liquidity across the country in the first half of 2023.
- As of March 31, 2023, U.S. Single Family mortgage debt outstanding totaled $13.4 trillion. Fannie Mae’s share stood at approximately $3.6 trillion, representing 27%.³

¹ Through June 30, 2023
² Includes HELOCs
³ Source: Federal Reserve’s Flow of Funds
Who We Are

We create opportunities for people to buy, refinance, or rent a home.

Fannie Mae sits at the very heart of the U.S. housing industry.

We purchase eligible mortgages from lenders and bundle them into mortgage-backed securities that we guarantee and sell to investors. Lenders use their replenished cash to originate new mortgages, and we use ours to start the process again. This continuous flow of money promotes a healthy housing market.

We partner with lenders to create home purchase and refinance (single-family) and rental (multifamily) opportunities for millions of borrowers and renters across the country.

We estimate that, as of December 31, 2022, approximately 1 in 4 single-family homes in the U.S. with mortgages were financed by Fannie Mae.

*Single Family, Approximate
Our Single-Family Business

Providing liquidity to the housing market and investment options to rates and credit investors.

Lender
Originates loans

Fannie Mae
Creates guaranteed MBS & non-guaranteed credit risk securities

Securitizes loans
Guarantees principal & interest on MBS in exchange for guaranty fee

Delivers loans
Services loans
Pays guaranty fee

MBS

Proceeds from sale of MBS flow back to lender to fund new loans

Interest Rate Investor
Purchases MBS & assumes interest rate risk

Credit Investor
Purchases credit risk securities & assumes portion of credit risk

Credit Risk Securities
Credit Risk Transfer Overview

Program benefits:
- Benchmark issuer
- Large, geographically diversified loan pools
- Innovative credit risk management tools
- Program transparency
- Unique online investor tools and resources

We have transferred over to $97 billion in single-family credit risk to private market participants since 2013, transferring a portion of the credit risk on over $3.2 Trillion of UPB at Issuance*

Connecticut Avenue Securities® (CAS)
- The benchmark for U.S. mortgage credit
- $63.4 billion issued since program inception*
- Covering over $2.1 Trillion in UPB at issuance*

Credit Insurance Risk Transfer™ (CIRT™)
- Attracts diversified insurers/ reinsurers
- $25.2 billion of coverage committed since program inception*
- Covering roughly $865 billion in UPB at issuance*

* Issuance amount as of September 30, 2023.
Our Credit Risk Management Approach

- **Lender quality**
  - Lenders undergo a rigorous approval process prior to doing business with Fannie Mae and must meet ongoing net worth and business operational requirements.
  - Lenders are subject to ongoing oversight through comprehensive operational reviews to assess the effectiveness of their quality control procedures.

- **Loan quality**
  - Loans must be underwritten in accordance with Fannie Mae guidelines.
  - 96%\(^{(1)}\) of loans that we acquire are evaluated through Desktop Underwriter\(^{®}\) (DU\(^{®}\)), the industry’s most widely used automated underwriting system.
  - 100% of Fannie Mae’s single family and condominium appraisals are assessed through Collateral Underwriter\(^{®}\) (CU\(^{®}\)), our proprietary appraisal risk assessment tool.

- **Servicing quality**
  - Fannie Mae sets loan servicing standards, acts as Master Servicer, and provides oversight of loan servicers.
  - We set standards for loss mitigation and borrower workout options. Our proprietary servicing tool, Servicing Management Default Underwriter\(^{TM}\) (SMDU\(^{TM}\)), automates our servicing policies.

- **Property management**
  - We manage all property management and disposition in-house, managing one of the industry’s largest real-estate owned portfolios – dispositioning over 1.8 million homes since 2009.
  - Our strategy is to sell non-distressed homes to owner-occupants, helping to maximize sales proceeds, stabilize neighborhoods, and preserve the value of our guaranty book.

1. Approximate loan deliveries in 2022 through DU

Click to learn more about our approach to Credit Risk Management
Credit Risk Management Highlights
Fannie Mae’s industry-leading technology drives improved loan quality and better outcomes.

Desktop Underwriter

- 1,790 Lenders/Agents
- 94% Loan deliveries in 2023 through DU

- In Q2 2023, approximately 83% ($74B) of the single-family loans (by UPB) acquired by Fannie Mae had one or more Day 1 Certainty® components
(1) Approximately 1,200 lenders actively deliver loans to Fannie Mae through DU on an annual basis. Approximately 590 additional lenders are approved for DU access.

Servicing Management Default Underwriter™

- Over 1,300 servicers currently benefit from SMDU through B2B integration or through the SMDU User Interface
- Provides consistent decisioning for loss mitigation solutions

Collateral Underwriter

- 63.5 Million+ Appraisals collected from August 2011 to date
- 10.6 Million+ Appraisals viewed by lenders since launch in January 2015

- 100% of single-family and condominium appraisals go through CU as part of our QC process

Real Estate Owned

- 1.8 million+ Homes disposed of since 2009

- Best execution approach to sell real estate based on NPV comparison to move-in ready home sold to owner occupant
- Evolution within our REO repair strategy has increased repair rates and investment over time, resulting in increased access for owner occupants to purchase move-in-ready homes.

As of June 30, 2023.

CAS 2023-R08 (Group 1) execution targeted for November.
Expected final deal for the year.
Since 2013, we’ve built an award-winning mortgage credit risk transfer program, with:
• The creation of the innovative CAS REMIC
• Industry-leading, data-driven credit risk management methodologies
• Transparent and unique investor resources
• Maturing and liquid market

Large, geographically diverse mortgage credit book, with innovative tools to improve the loan manufacturing process with over

$63 billion
issued under the CAS program since 2013

Transferred a portion of risk on over

$2.1 trillion
in unpaid principal balance of
mortgage loans
at time of CAS issuance

Transparent credit risk management process with historical research dataset of over

54 million
loans

Issuance amount as of October 31, 2023.
CAS Evolution: Transforming the CRT Sector

2013
- CAS 1.0: Fixed severity loss framework
  - CAS 2013-C01 through CAS 2015-C03
  - Legal maturity: 10-years
  - Optional call: 10% clean-up call
  - Corporate debt
- Class M-1 and Class M-2 notes
- Group 1 loans (60-80% LTVs)

2014
- Introduced transactions with Group 2 loans (80-97% LTVs)

2015
- CAS 2.0: Actual loss framework
  - CAS 2015-C04 and forward
    - Legal maturity: 12.5 years
    - Optional call: 10-year call option or 10% clean-up
- Issued Class B Notes: sold portion of the first loss position

2016
- Issued Class B-1 Notes: retained first 50 bps of loss
- Received ratings on previously unrated M-2 classes

2017
- Issued Class B-1 Notes

2018
- CAS 3.0: CAS REMIC
  - CAS 2018-R07 and forward
  - All classes issued as REMICs

2019
- CAS 2019-R04 and forward:
  - Legal maturity: 20-years
  - Optional Call: 7-year starting with CAS 2019-R04 or 10% clean-up
- Issued HARP transaction: CAS 2019-HRP1

2020
- Issued Seasoned B Tranche Transaction: CAS 2020-SBT1
  - Re-reference of CAS 2015-C04 through CAS 2016-C07

2021
- Issued Class B-2 Notes: retained a first loss piece
  - Legal maturity: 20-years
  - Optional Call: 5-years or 10% clean-up
  - Transitioned to SOFR-based transactions
  - Received ratings for 16 unrated classes from 13 transactions between 2017-2019
  - Conducted seasoned CAS Note tender offer

2022
- Optimizing structure to conform to the Enterprise Regulatory Capital Framework (ERCF)
CAS Bond Ratings

At Issuance

All CAS M-1 and M-2 bonds have current ratings the same as or higher than their rating at issuance.

Additional Ratings

In 2022, CAS bonds received 148 upgrades.

YTD 2023**, CAS bonds have received 50 upgrades.

### Deal timing:

- **Loan Data File:** July 12, 2023
- **Pre-Marketing:** July 17-18, 2023
- **CAS 2023-R06 Execution:** July 19, 2023
- **Closing and Settlement:** July 26, 2023
CAS 2023-R06 Structural Overview (Group 1)

- Loans acquired in July 2022 – October 2022 and securitized into MBS pools issued in July 2022 – March 2023
- Reference Pool contains only 60.01-80.00% LTV loans
- 20-year legal final maturity; Fannie Mae optional call starting in year 5
- Fannie Mae optional 10% clean up call
- Notes are par-priced uncapped SOFR-based floaters
- Minimum credit enhancement to unlock unscheduled and scheduled principal is 5.25%
- Delinquency test trigger must be satisfied to unlock unscheduled and scheduled principal
- Credit events are based on actual losses
- 1M-2 class and 1B-1 class will offer exchange features with rated exchangeable notes
- The Class 1M-1 and 1M-2 Notes will be ERISA eligible
- All classes are issued as REMICs and treated as debt-for-tax
- Fannie Mae will retain 100% of the first loss tranche and at least 5% of all offered tranches. Retention is in line with requirements of Regulation (EU) 2017/2402 Section 5.1(d) and Article 6.3(a) of the UK Securitization Regulation regarding retention of material net economic interest
CAS REMIC Structure

**Reference Pool**
- Fannie Mae acquires and makes a REMIC election on loans
- Loans are deposited into MBS
- Loans in reference pool meet CAS Eligibility Criteria

**Hypothetical Structure - CAS REMIC Notes in Blue**
- **Class A-H**
  - Fannie Mae retains senior-most risk position
- **Class M-1**
  - Sold to investors
  - Fannie Mae retains 5%+ vertical slice
- **Class M-2**
  - Sold to investors
  - Fannie Mae retains 5%+ vertical slice
- **Class B-1**
  - Sold to investors
  - Fannie Mae retains 5%+ vertical slice
- **Class B-2**
  - Sold to investors
  - Fannie Mae retains 5%+ vertical slice
- **Class B-3H**
  - Fannie Mae retains first loss position

**Credit and prepayment performance of the underlying mortgage loans determines performance of CAS securities**

1. **Fannie Mae**
   - REMIC regular interests that are associated with the loans are conveyed to the CAS REMIC
   - Earnings on Eligible Investments in Collateral Account contributes to interest on Notes and proceeds from liquidation of Eligible Investments covers return amounts to Fannie Mae and pays principal on Notes

2. **Issuer issues Class M-1, M-2, B-1 and B-2 Notes. Receives cash proceeds**
   - **Class M-1**
     - Sold to investors
     - Fannie Mae retains 5%+ vertical slice
   - **Class M-2**
     - Sold to investors
     - Fannie Mae retains 5%+ vertical slice
   - **Class B-1**
     - Sold to investors
     - Fannie Mae retains 5%+ vertical slice
   - **Class B-2**
     - Sold to investors
     - Fannie Mae retains 5%+ vertical slice

3. **Issuer pays interest (uncapped SOFR floater)**
   - **Class M-1H**
     - Fannie Mae retains 5%+ vertical slice
   - **Class M-2H**
     - Fannie Mae retains 5%+ vertical slice
   - **Class B-1H**
     - Fannie Mae retains 5%+ vertical slice
   - **Class B-2H**
     - Fannie Mae retains 5%+ vertical slice
   - **Class B-3H**
     - Fannie Mae retains first loss position

**Loss Allocation**
• CAS cash flow structure is similar to typical RMBS transaction cash flows

• Principal payments and losses applied to the notes mirror the activity on the loans in the underlying Reference Pool

• **Principal Payments** are first allocated pro rata between senior notes and subordinate notes, then are applied sequentially to the subordinate notes starting with 1M-1

• Deal must meet specified credit enhancement and delinquency tests for the subordinate notes to receive unscheduled and scheduled principal payments

• **Losses** are applied in reverse sequential order beginning with class 1B-3H
  - 1B-3H will have a class coupon of SOFR + 15% for use in connection with the allocation of Modification Loss Amounts

• Principal payments and losses are allocated pro rata between the sold notes and the retained vertical slice

---

**Cash Flow Waterfall**

**Loan Group 1 (60.01 – 80.00 LTV)**

- **Senior Notes**: A-H class
- **Mezzanine Notes**: M classes
- **Subordinate Notes**: B classes
- **Retained Vertical Slice**: 1M-1H, 1M-2H, 1B-1H, 1B-2H

# Actual Loss Calculation – Principal Losses

## Losses at Disposition

| (+) | Loan Balance | UPB at time of removal from reference pool (including any prior principal forgiveness amount) |
| (+) | Total Liquidation Costs | Foreclosure Expense  
|  |  | Property Preservation Expense  
|  |  | Asset Recovery Expense  
|  |  | Miscellaneous Holding Expenses/Credits  
|  |  | Associated Taxes  
| (+) | Accrued Interest | Unpaid interest from Last Paid Installment date through Disposition Date on interest-bearing UPB, based on net  
|  |  | Note rate (Note Rate net of servicing fee or 35 bps, whichever is greater)  
| (-) | Total Proceeds | Net Sales Proceeds  
|  |  | Credit Enhancement Proceeds (Mortgage Insurance Proceeds)  
|  |  | Repurchase/ Make Whole Proceeds  
|  |  | Other Proceeds

Expenses and proceeds associated with a credit event are passed through to noteholders 90 days after the disclosed Disposition Date (e.g., property sale date). Any remaining trailing expenses and proceeds are passed through on a monthly basis thereafter as received.
Credit Insurance Risk Transfer™ (CIRT™) Overview
2023 CIRT Issuance Calendar

- Calendar highlights periods in 2023 during which Fannie Mae may execute Credit Insurance Risk Transfer.
- Fannie Mae anticipates acquiring approximately $3-4.5 billion of CIRT coverage in 2023.
- Fannie Mae may choose not to execute in some or all periods.
- Coverage volumes and utilization of available execution windows continue to be dependent on business factors and market conditions.

Note: Subject to change.
Mortgage Credit Risk Transferred under the CIRT Program

- Large, geographically diversified loan pools provide broad exposure to U.S. housing market
- Fannie Mae acts as an intermediary between the lender and investor to set standards, manage quality, mitigate losses, and maximize value
- Transparent pricing provided on our webpage for all transactions – along with key deal documents and transaction data
- Powerful investor resources – including proprietary analytical tool Data Dynamics®

The CIRT Program has provided over $25.8B in coverage since program inception.

Note: As of October 24, 2023
Reinsurance Deal Structure

Fannie Mae has Sole Beneficial Interest in Trust

- Trust Agreement
  - Premium Paid
  - Premium Ceded
- Aggregate XOL Insurance Policy
  - Loss Recoveries
  - Interest & Liability Agreement
  - Quota Share Reinsurance Treaty
- Protected Cell
  - “Cut Through” Endorsement to Quota Share (“QS”) Reinsurance Agreement

Lenders:
- Lender 1
- Lender 2
- Lender 3
- Lender 4
- …
- Lender X

Reinsurers:
- Reinsurer A
- Reinsurer B
- Reinsurer C
- Reinsurer X

Loans delivered to FNMA under (Mortgage Selling and Servicing Contract)

Loans owned or guaranteed
CIRT 2023-8 Loan Pool Selection Process

- All loans will have terms greater than 240 months and less than or equal to 360 months. Other minimal exclusion criteria apply.
- Fannie Mae acquires HARP loans under its Refi Plus™ initiative, which provides expanded refinance opportunities for eligible Fannie Mae borrowers.
- Not Refi Plus™ / Not HARP
- 60% < Loan-to-Value ≤ 80%
- 0 x 30 payment history since acquisition
- Not subject to a repurchase request as of Cut-Off Date
- Not subject to any form of risk sharing with the loan seller and/or servicer
- Other exclusions may apply
- A randomly selected subset of September 2022 to December 2022 Loans
- UPB covered at Issuance CIRT 2023-8: $8.398 Billion

1. All loans will have terms greater than 240 months and less than or equal to 360 months. Other minimal exclusion criteria apply.
2. Fannie Mae acquires HARP loans under its Refi Plus™ initiative, which provides expanded refinance opportunities for eligible Fannie Mae borrowers.
Insurance Policy Structural Overview

Key Features:

- Simple loss structure
- Structured with retention layer and an aggregate limit of liability
- Fannie Mae retains first loss (retention) layer
- If retention layer is exhausted, reinsurers cover actual losses up to aggregate limit of liability
- Actual loss is determined after property disposition
- Limit may step down on first anniversary and monthly thereafter depending on level of delinquencies and pool paydowns
- Partial collateralization of risk exposure, based upon external ratings of reinsurer
- Termination option at any time on/after a specified anniversary date (typically 60 months) with a fee paid to reinsurers
- “Clean up” call once covered balance <=10% initial covered balance without a termination fee

Illustration

- Catastrophic losses (retained by Fannie Mae)
  - 5.50%
- 4.10% aggregate limit of liability (risk transferred to reinsurers)
- 1.40% first loss layer (retained by Fannie Mae)
  - 1.40%
  - 4.10%
Limit of Liability Step Down

Expected Scenario - Illustration

- Step down typically begins at Month 12 following the effective date and monthly thereafter
- Remaining Limit of Liability will be reduced based on the paydown of the covered pool and balance of delinquent loans
- Limit step down beneficial to reinsurers as collateral requirement declines
- Fannie Mae has early termination option, typically at Month 60, or thereafter

</tbody>
</table>

**Step-Down of Limit Liability:**

At 12 month following effective date, and each month thereafter, limit of liability shall be reduced to the lesser of:

- a) the Remaining Limit of Liability at such date, or
- b) the greater of:
  - i. The following target Limit percentages:
    - a) At 12-23 months after the effective date: total current UPB x 115% of limit of liability %;
    - b) At 24 and greater months after the effective date: total current UPB x limit of liability %, or
  - ii. The following non-performing triggers:
    - a) At 12-23 months after the effective date: 650% of (SDQ+REO) UPB,
    - b) At 24-35 months after the effective date: 425% of (SDQ+REO) UPB,
    - c) At 36-59 months after the effective date: 300% of (SDQ+REO) UPB,
    - d) At 60 and greater months after the effective date: 200% of (SDQ+REO) UPB

**Cancellation:**

12.5-year term. Fannie Mae may terminate coverage on/after the 5-year anniversary, and early termination fee paid if early termination option exercised between 5-year and 10-year anniversary. Also subject to a 10% clean-up call, and if exercised no termination fee will be paid.
Illustration of Property Disposition and Loss to CIRT Structure

Note: CRT-eligible loans using MBS issuance data. Source: Fannie Mae MBS issuance data.

1. Risk Layers defined as: Investment Property, Cash-out Refinance, DTI 46-50 (rounded to the nearest integer), and FICO < 680.
2. CRT-eligible criteria defined as: fixed-rate, 1-4 units, origination LTV (60,97], origination CLTV (60,97], origination DTI (0,50], original loan term (300,360], conventional, non-reperforming.
Total Mortgage Origination Volume and FICO

Credit profile typically fluctuates with the origination cycle

- When origination capacity is tight, credit profile is strongest
- Lower origination volumes mean lenders have more capacity to underwrite to the full credit box
- Overall profile is heavily levered to profile of refinancings, as purchase profile is more stable

DU Model Updates: 2021-2023

Sep 2021: DU 11.0
- Updated the credit score used by DU in the eligibility assessment for loan casefiles with more than one borrower by using an average median credit score when determining if a loan casefile meets the minimum credit score requirement of 620.
- DU to consider a borrower’s positive rent payment history in the credit risk assessment. Lender must obtain a 12-month Verification of Asset (VOA) report.
- May result in additional loans receiving Approve/Eligible in DU

Mar 2022: DU 11.0
- Implemented a desktop appraisal option. Must be a purchase transactions secured by a one-unit principal residences, and LTV ratio is <=90%.

Apr 2022: DU 11.0 – Removed the minimum representative credit score requirement of 620 for RefiNow™ loans.

Jul 2022: DU 11.0 – Updated risk and eligibility assessment in response to changing market conditions. May yield a reduction in loan case files receiving Approval/Eligible, with most noticeable reduction on cash-out refinance transactions when multiple high-risk factors are present.

Aug 2022: DU 11.0
- DU to issue employment documentation messages specific to RefiNow when the requirements are different than standard documentation requirements.
- Asset documentation flexibility extended to RefiNow loan casefiles.

Dec 2022: DU 11.0
- Enhancements to support loans where no borrower has traditional credit. Principal residence, purchase or limited cash-out refinance, LTV/CLTV <=95%, DTI up to 50%. Cashflow assessment required via 12-month asset verification report.
- May result in additional loans receiving Approve/Eligible in DU

Jan 2023: DU 11.1
Fine tune DU’s ability to assess risk. May yield a reduction in loans case files receiving Approve/Eligible with most notable reduction of loans with high LTV and DTI ratios with multiple high-risk factors. Certain loans meeting specific housing goals or Duty to Serve initiatives are excluded.
- Updates to improve DU’s ability to identify rent payment history on a third-party asset verification report.

Pandemic-Related Hardships Resolving

Refi wave and strong housing market enabled a significant portion of COVID-affected borrowers to prepay

Investor Resources
Our free platform allows investors to gain insights into historical loan performance trends, issuance profiles, and monthly performance – exclusively for Fannie Mae’s CAS and CIRT programs.

The tool is continuously enhanced based on investor feedback and new disclosures.

**Enhancements include:**

- **CRT Transition Matrix:** Access three matrices to analyze month-over-month transitions in Forbearance, Workout, and Delinquency status for loans that are referenced in our CAS transactions.

- **Payment Forbearance Dashboard:** View performance on the active population of loans in forbearance and analyze historical loan cohorts that were ever in forbearance for CAS.

- **CAS Structural and Delinquency Test Monitor:** View the monthly status of CAS deal-level credit enhancement and delinquency tests.
Outcomes Vary by Length of Delinquency

For borrowers who have exited forbearance, outcomes are correlated to the number of missed payments.

**Source:** Fannie Mae. Shows CAS and CIRT combined performance through August 31, 2023. Shows outcomes for loans that were active on Feb 29, 2020, entered forbearance since Mar 1, 2020, and have exited forbearance by August 31, 2023. Excludes cancelled CIRT deals, fixed severity CAS deals, and HARP/lender recourse deals. Percentages calculated using loan count.

© 2023 Fannie Mae
Gain insights into historical performance trends and relationships to credit performance via our dataset.

Access our historical monthly loan performance data on a portion of our single-family mortgage loans

- Includes a subset of our 30-year and less, fully amortizing, full documentation, conventional fixed-rate mortgage acquisitions since January 2000
- Updated on a quarterly basis to include a new quarter of acquisitions and performance
- Inclusive of loans modified through HARP®, supporting market analysis of high loan-to-value refinance assistance programs

Key features:

- Utilize Data Dynamics® to see aggregated loan-level data
- Download the entire dataset with one-click, capturing over 50 data elements per loan
- Self-serve with abundant investor resources including file layout & glossary, FAQs, web tutorials, and statistical summaries to support download of dataset
- Loan performance data is also available through Application Programming Interfaces (APIs). Instructions for accessing the APIs are available in Data Dynamics under the Resources section in the Historical Performance tile
- Multifamily Loan Performance Data added in August 2019

1. Available beginning with CAS 2017-C07 and CIRT 2017-7. All prior deals will reflect null values.
CAS Resources for EU & UK investors

Fannie Mae’s webpage is designed to help European Union and United Kingdom institutional investors and those managing funds subject to EU/UK regulations.

- Information and resources that Fannie Mae already makes publicly available for all investors is organized in an easy-to-navigate format according to applicable sections of EU Regulation 2017/2402

- **New!** In response to European Union (EU) additional guidance published in October 2022, beginning on May 25, 2023, Fannie Mae started providing monthly loan-level and deal-level data in ESMA Annex 2 and Annex 12 template formats directly in Data Dynamics®
  - The data will be provided on a go-forward basis for all benchmark CAS deals beginning with CAS 2019-R01*

Visit [www.fanniemae.com/eu-resources](http://www.fanniemae.com/eu-resources) and [www.fanniemae.com/uk-resources](http://www.fanniemae.com/uk-resources) for more information.

*For CAS 2019-HRP1, one data element on Annex 2, Original Obligor Identifier, has not been provided due to borrower privacy concerns.

DU Model Updates: 2017-2020

July 2017: DU 10.1
- Enabled loans with DTI ratios above 45% (up to 50%) to rely on DU’s comprehensive risk assessment. Removed DU model overlays with set maximum LTV ratio and minimum reserves requirements for those loans.
- May result in additional loans receiving Approve/Eligible in DU.

March 2018: DU 10.2
- Revised DU’s risk assessment to limit risk layering.
- May yield a reduction in Approve/Eligible recommendation on loans that have multiple higher-risk characteristics.

December 2018: DU 10.3
- Enhanced DU’s management of multiple risk layers. Six months of reserves for cash-out refinances with DTI over 45% to address increase in high DTI acquisitions.
- May yield a reduction in loan case files most notably for loans with multiple risk factors.

July 2019: DU 10.3
- Certain new loan casefiles submitted to DU will receive an Ineligible recommendation when multiple high-risk factors are present.
- Updated the DU eligibility assessment to better align the mix of business delivered to us with the composition of business in the overall market.

April 2020: DU 10.3
- In response to changing market conditions and economic uncertainty surrounding COVID 19 Pandemic and support sustainable homeownership we revised DU’s risk and eligibility assessments to result in modest reduction of loan casefiles with high-risk factors receiving an Approve/Eligible recommendation.

CAS REMIC: Commodity Futures Trading Commission (CFTC) Considerations

CAS REMIC structure allows transaction to be created in a manner that does not involve swaps

- Transaction documents are traditional commercial transactions
- None of the transaction documents will utilize an International Swaps and Derivatives Association (ISDA) or similar agreement
- The substance of all transaction documents will be commercial (securities and capital contribution) agreements
- Outside counsel to Fannie Mae and the Issuer will deliver an opinion letter that the transaction does not involve any swaps
- Since the transaction does not involve any swaps, the Issuer is not considered a commodity pool and, therefore, does not need to register with the CFTC
# CAS: Summary of Key Tax, Legal and Regulatory Considerations

<table>
<thead>
<tr>
<th>Topic</th>
<th>CAS Direct Debt</th>
<th>CAS REMIC</th>
</tr>
</thead>
<tbody>
<tr>
<td>Issuer</td>
<td>Fannie Mae</td>
<td>CAS REMIC Trust, a wholly-owned, non-consolidated subsidiary of Fannie Mae. Fannie Mae is sponsor and depositor.</td>
</tr>
<tr>
<td>Registration</td>
<td>Exempt under Fannie Mae Charter Act.</td>
<td>Exempt under Rule 144A.</td>
</tr>
<tr>
<td>Offering Restrictions</td>
<td>Within the U.S.: Notes offered only to “Qualified Institutional Buyers” as defined in Rule 144A under the Securities Act.</td>
<td>Within the U.S.: Notes offered only to “Qualified Institutional Buyers” as defined in Rule 144A under the Securities Act.</td>
</tr>
<tr>
<td>Regulation S</td>
<td>Outside the U.S.: Notes offered only to non-U.S. persons pursuant to Regulation S of the Securities Act.</td>
<td>Outside the U.S.: Notes offered only to non-U.S. persons pursuant to Regulation S of the Securities Act.</td>
</tr>
<tr>
<td>Sales to REITs</td>
<td>CAS are deemed to be government securities for purposes of the REIT tax tests, so are qualifying assets for REITs, but generally are less attractive because they do not produce qualifying real property income for REITs.</td>
<td>A REMIC security will be a qualified REIT asset and will produce qualified income for REITs.</td>
</tr>
<tr>
<td>Tax Treatment</td>
<td>M1 and M2 are debt for tax. B1 is a contingent notional principal contract for tax.</td>
<td>All tranches are treated as debt for tax.</td>
</tr>
<tr>
<td>Topic</td>
<td>CAS Direct Debt</td>
<td>CAS REMIC</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Sale of B Piece</td>
<td>B piece is generally subject to 30% withholding tax if sold to non-U.S. investors.</td>
<td>B piece is treated as debt-for-tax and therefore NOT subject to withholding tax if sold to overseas investors.</td>
</tr>
<tr>
<td>CFTC/Commodity Pool Operator (CPO)</td>
<td>Registration as a CPO is not required.</td>
<td>Registration as a CPO is not required.</td>
</tr>
<tr>
<td>Investment Company Act of 1940</td>
<td>Fannie Mae, as an instrumentality or ‘government entity’ of the United States, is exempt from registration pursuant to Section 2(b) of the Act.</td>
<td>As an entity wholly owned by Fannie Mae, the SPV is exempt from registration pursuant to Section 2(b) of the Act.</td>
</tr>
<tr>
<td>Volcker Rule</td>
<td>Exempt from the 1940 Act since Fannie Mae is the issuer. Securities are exempt from Volcker Rule since they are not issued in reliance upon an exemption under Section 3(c)(1) or 3(c)(7) of the 1940 Act.</td>
<td>The SPV will be exempt from the Act pursuant to Section 2(b). CAS REMIC notes therefore will not constitute interests in a “covered fund” for purposes of the Volcker Rule since the Volcker Rule applies only to securities issued in reliance on Sections 3(c)(1) or 3(c)(7) of the Act.</td>
</tr>
<tr>
<td>ERISA Eligibility</td>
<td>Non-rated and below investment grade rated notes are ERISA eligible because they represent either (i) debt for tax or (ii) equity in an operating company (Fannie Mae).</td>
<td>The M1 and M2 notes will be ERISA-eligible because they are both able to meet certain criteria to be characterized as debt-for-tax independent of the REMIC election. In 2023 issuances, the B1 bond is not expected to be ERISA-eligible.</td>
</tr>
</tbody>
</table>
How MI Works: Typical Loan

- MI Coverage acquired by Lender
- Fannie Mae’s requirement for MI Coverage Percent determined by Original LTV

Servicer Informs MI of 60-day DQ

Fannie Mae files claim within 60 days of Foreclosure

Claim Paid

Property Disposition Date

Potential MI Cancellation due to:
- Loan balance amortizes to 78% of original property value (automatic)
- Loan balance reduced to ≤ 80% of original property value (borrower initiated)
- Loan balance reduced to ≤ 80% of current property value (borrower initiated)

Loan must be current and meet other requirements

Foreclosure Expenses Accrued

- DQ Interest*
- Foreclosure Costs**
- Asset Recovery Costs**
- Associated Taxes**
- Misc.**

Disposition Expenses Accrued

- Property Preservation
- Associated Taxes
- Misc.

Residual loss (net of MI Benefit) applied to CIRT structure 90 days after property disposition

MI Benefit
Settled with the “Percentage Option”

= (Default UPB + DQ Interest + Allowable Expenses) x MI Coverage %

The claim must be “perfected” (received all required documentation) within 120 days of claim filing, and settled within 180 days of the “perfect date.”

* The covered loss may be curtailed based upon eligibility under MI policy
** The covered loss may be estimated under MI factor
How MI Works

Disaster event / Physical Damage

Under MI Master policies, an MI claim can be denied if there is material physical damage to the property that was the principal cause of default. The damage could be the result of natural disaster (e.g., flood, earthquake, hurricane, etc.) or otherwise (e.g., defects in construction, fire, environmental impairment).

Physical damage means any injury, physical damage or impairment to a property that the MI reasonably estimates to be in excess of the greater of $5,000 or 2% of the original property value, whether caused by accident, natural disaster or otherwise.

If physical damage is the principal cause of default and manifested itself after the MI issued its commitment, the MI can deny the claim.

Physical damage is deemed to be the principal cause of default if:

1) the property has not been restored; and

2) there was no hazard insurance or insufficient hazard insurance to restore the property; or

3) there was sufficient hazard insurance, but a claim was not filed, or a claim was filed but the proceeds have not been received, or the proceeds have been received but not applied to restore the property.

If the MI provides notification of its intent to deny the claim and we promptly notify the MI of our intent to restore the property and actually restore it within 180 days (or up to 1 year if certain requirements are met), the MI cannot deny the claim.

If physical damage is not the principal cause of default, the MI may curtail (but not deny) the claim in accordance with policy parameters that depend on whether the MI can reasonably estimate the cost of restoration.
MI Factor

Streamline calculation of MI claims, accelerate payment, and reduce uncertainty

- Investors in CAS and CIRT transactions can now expect timelier, more predictable settlement of MI claims with no expected material impact on aggregate proceeds received.
- MI Factor is used to determine only the foreclosure/property preservation cost component of an MI claim, which typically represents approximately 5% of the claim but requires the most work for all parties involved.
  - Current practice of using actual foreclosure/property preservation costs to determine a claim amount is replaced by a calculation that applies a numerical factor to the property value or default UPB (shown below)(1).
- Factor applied to a given loan determined by using a grid that allows consideration of relevant loan characteristics that impact foreclosure/property preservation costs.
- Factor was developed by back-testing against 13 years of claim data covering a number of economic environments. We found costs can be predicted with great accuracy using four loan attributes: disposition types, geography clusters, statistically-derived home value buckets, and property type buckets.
- To capture changing market dynamics, Fannie Mae will evaluate the selection of loan attributes and determination of factors annually.

**MI Factor Calculation of Foreclosure/Property Preservation Costs**

\[
\text{Fixed Foreclosure Costs} \times \text{Fixed Cost Factor} + \text{Variable Foreclosure Costs} \times \text{Variable Cost Factor}
\]

(1) Property value is used for Short Sales whereas default UPB is used for REO and Third-Party Sales claims.

# Workout Hierarchy

Programs to help both servicers and borrowers manage delinquent mortgage loans and avoid foreclosure.

<table>
<thead>
<tr>
<th>Retention Options</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Forbearance</td>
<td>Agreement between the mortgage servicer and the homeowner to pause or reduce monthly mortgage payments for a certain period, allowing homeowners to resolve their short-term hardship.</td>
</tr>
<tr>
<td>Reinstatement</td>
<td>Homeowner is able to resume making their regular monthly payments following a delinquency (or forbearance plan) and can repay the missed amounts all at once.</td>
</tr>
<tr>
<td>Repayment Plan</td>
<td>Homeowners repay the missed amounts over a fixed period. They make their repayments along with their regular mortgage payment on a monthly basis.</td>
</tr>
<tr>
<td>Payment Deferral</td>
<td>Designed to assist borrowers who have resolved a temporary hardship by deferring missed payments to the end of the loan term or earlier if the home is sold, property is transferred, or the loan is refinanced or otherwise paid off.*</td>
</tr>
<tr>
<td>Fannie Mae Flex Modification</td>
<td>Designed to assist borrowers who are experiencing a permanent or long-term hardship, the Flex Modification offers payment relief through a combination of potential interest rate reduction, extension of the loan term, and possible principal forbearance. Only interest rate reduction/principal forbearance resulting from a Flex Modification may entail modification losses.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Liquidation Options</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Credit Events</td>
<td>When retention is not a viable option, liquidation options include short sale, or Mortgage Release™ (Deed-in-Lieu of Foreclosure); or the loan is liquidated after the servicer refers the mortgage loan to foreclosure in accordance with applicable law.</td>
</tr>
</tbody>
</table>

---

*CAS: Payment deferrals are currently not treated as modification events in the structure.

*CIRT: Beginning with CIRT 2023-1, Payment Deferral is a covered modification expense in the CIRT structure. Losses associated with payment deferrals are a covered modification loss in the CIRT structure.
Modification Losses

<table>
<thead>
<tr>
<th>Modification</th>
<th>Borrower Impact</th>
<th>Loss to Investor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest Rate Reduction</td>
<td>Reduces monthly interest rate borrower pays on loan obligation</td>
<td>Losses passed through based on the difference between the modified and original note rate paid on the outstanding loan balance</td>
</tr>
<tr>
<td>Principal Forbearance</td>
<td>Deferral of a portion of the unpaid principal balance as part of a loan modification (not as part of a Payment Deferral) until the loan’s maturity date or early payoff of the mortgage loan</td>
<td>Loss reflects foregone interest on non-interest bearing portion of UPB. Recognized in Non-interest Bearing UPB field in monthly reporting.</td>
</tr>
<tr>
<td>Term Extension</td>
<td>Loan term is extended to reduce borrower monthly payments</td>
<td>No loss to investor</td>
</tr>
</tbody>
</table>
| Principal Forgiveness* | Outstanding principal loan balance is subject to a one-time principal reduction based on established eligibility criteria | ▪ At time of principal forgiveness, no modification losses will be passed through to noteholders  
                                        ▪ The forgiven UPB amount will be treated as unscheduled principal at the time of the modification  
                                        ▪ If the modified loan subsequently experiences a credit event, the amount of the principal forgiveness will be included in the credit event net loss (realized loss calculation) |

**CAS:** Modification losses are passed through to noteholders on a monthly basis once a permanent modification takes effect.

**CIRT:** Modification losses flow through the CIRT structure on a monthly basis according to the Modification Loss structure outlined in the Insurance Policy. No losses are incurred during a modification trial period (typically 3 months). Starting with CIRT 2023-1, expenses associated with payment deferrals are a covered modification loss in the CIRT structure.

---

*Principal forborne as part of a Payment Deferral is recognized in Total Deferral Amount field in monthly reporting and does not constitute a modification loss.
*Fannie Mae does not anticipate that any loans referenced in CAS deals will be eligible for Principal Forgiveness.
*Principal Forgiveness Eligibility Criteria: http://www.fhfa.gov/Media/PublicAffairs/Pages/FHFA-Announces-PRM-Program-and-Further-Enhancements-to-NPL-Sales-Reqts.aspx

<td></td>
<td>The servicer is not required to perform an escrow analysis or revoke any escrow deposit account waiver.</td>
<td>The servicer must • confirm that the borrower is current on the payments of all escrow-related items for non-escrowed accounts, or • analyze an existing escrow account to estimate the periodic escrow deposit required to ensure adequate funds are available to pay future charges, and • spread repayment of the escrow shortage amount in equal monthly payments over a term of 60 months, unless the borrower decides to pay the shortage amount up-front or over a shorter period, not less than 12 months.</td>
<td>The servicer must • confirm that the borrower is current on the payments of all escrow-related items for non-escrowed accounts, or • analyze an existing escrow account to estimate the periodic escrow deposit required to ensure adequate funds are available to pay future charges, and • spread repayment of the escrow shortage amount in equal monthly payments over a term of 60 months, unless the borrower decides to pay the shortage amount up-front or over a shorter period, not less than 12 months.</td>
<td>If the servicer chooses to perform an escrow analysis, any escrow account shortage that is identified at the time of the disaster payment deferral must not be included in the non-interest-bearing balance, and the servicer is not required to fund any existing escrow account shortage. In addition, the servicer is not required to revoke any escrow deposit account waiver. In the event the servicer identifies an escrow shortage as the result of an escrow analysis in connection with a disaster payment deferral or as part of the next annual analysis, then the servicer must spread repayment of the escrow shortage amount in equal monthly payments over a term of up to 60 months, unless the borrower decides to pay the shortage up-front.</td>
</tr>
</tbody>
</table>
Temporary Interest Rate Buydowns

Mortgage loans acquired by Fannie Mae may be subject to a temporary interest rate buydown, which is used to reduce a borrower’s monthly payment through a temporary reduction in the interest rate. They can be classified as "Moderate" or "Significant".

- **Moderate (SFC 9)** – A Moderate buydown is less than or equal to 2% and for less than or equal to 24 months
- **Significant (SFC 14)** - A Significant buydown is greater than 2% and/or for greater than 24 months

Temporary Interest Rate Buydown Loans are underwritten without consideration of the bought-down rate, and the DTI reported in our disclosures reflects such rate.

CRT disclosures will include a one-time loan level file posted on Data Dynamics with a buydown indicator flag denoting SFC 9 / 14 or not applicable.

(1) An interest rate buydown in which the interest rate is bought down by less than or equal to 1% and for less than or equal to 12 months.
(2) An interest rate buydown in which the interest rate is bought down by less than or equal to 2% and for less than or equal to 24 months.
(3) Total may not sum due to rounding.

See Temporary Interest Rate Buydowns in the Selling Guide for additional details.
The Modern Valuation Spectrum

Value acceptance
Data, model, and technology driven

Uses data and a modeling framework to confirm the validity of the value/sale price. For purchases and refinances; especially well-suited for low-risk refinances when the subject and market data is abundant.

NEW: Used when modeling framework confirms the validity of the value/sale price, but a prior observation of the property is lacking. Property data is collected by a trained and vetted third party (real estate agent, insurance inspector, appraiser, etc.) to provide a current observation of the property. Lender reviews data and warrants property eligibility. Implemented April 15, 2023

Value acceptance + property data

Property data collected by a trained and vetted third party (real estate agent, insurance inspector, appraiser, etc.) is passed to an appraiser to perform an enhanced version of a desktop appraisal. For loans that do not qualify for value acceptance or do not have reliable prior observations of the subject property.

Value determination
Appraisal driven

Appraiser completes the appraisal without physically inspecting the property, using data from various sources (agents, homeowners, MLS, tax records, etc.). Best suited for purchase transactions.

Hybrid

Appraiser collects the property data and completes the market analysis required for the appraisal. For complex property types or situations where data is sparse.

Value Acceptance (Appraisal Waiver)

As part of Fannie Mae’s commitment to simplify the complexity of mortgage origination by creating efficiencies and delivering innovations that improve the loan manufacturing process, we updated our value acceptance (appraisal waiver) offering, formerly known as Property Inspection Waiver, by integrating Desktop Underwriter (DU) and Collateral Underwriter (CU).

By using Fannie Mae’s industry-leading analytics, which includes both CU and AVM (automated valuation model), we can offer value acceptance for certain lower-risk eligible loans.

- Subject property generally has a prior appraisal that was analyzed by CU or UAD elements, which are evaluated in conjunction with the AVM.

<table>
<thead>
<tr>
<th>CU</th>
<th>UAD Elements</th>
</tr>
</thead>
<tbody>
<tr>
<td>CU will evaluate the prior appraisal for overvaluation or property eligibility issues. If any of these issues exist, value acceptance (appraisal waiver) will not be granted.</td>
<td>Fannie Mae will use property data sourced from UAD if any eligibility issues exist; value acceptance (appraisal waiver) will not be granted.</td>
</tr>
<tr>
<td>CU will use the prior appraised value along with Fannie Mae’s Home Price Index to assess the reasonableness of the estimated property value provided by the lender in DU.</td>
<td>Fannie Mae will use internally sourced AVM to assess the reasonableness of the estimated property value provided by the lender in DU.</td>
</tr>
<tr>
<td>If estimated property value is reasonably supported, the loan may be eligible for value acceptance (appraisal waiver), subject to additional eligibility requirements.</td>
<td>If estimated property value is reasonably supported, the loan may be eligible for value acceptance (appraisal waiver), subject to additional eligibility requirements.</td>
</tr>
</tbody>
</table>

- We currently anticipate that the majority of transactions will continue to require an appraisal.

- Fannie Mae has offered value acceptance (appraisal waivers) for many years, and we have observed no material differences in performance for loans with the waiver versus comparable risk loans that obtained an appraisal.

- In September 2020, Fannie Mae enhanced its CRT disclosures from “Property Inspection Waiver” to a new attribute, “Property Valuation Method,” which indicates the method by which the value of the subject mortgaged property was obtained, including appraisal waivers.

CAS/CIRT deal files include a loan-level waiver identifier.
Value Acceptance (Appraisal Waiver) Eligibility

Transactions considered for a value acceptance offer:*

- Loan casefiles that receive an Approve/Eligible recommendation
- One-unit properties, including condominiums
- **Limited cash-out refinance transactions**: principal residences and second homes up to 90% LTV/CLTV. Investment properties up to 75% LTV/CLTV
- **Cash-out refinance transactions**: principal residences up to 70% LTV/CLTV. Second homes and investment properties up to 60% LTV/CLTV
- **Purchase transactions**: principal residences and second homes up to 80% LTV/CLTV
- Properties in high-needs rural locations, as identified by FHFA
- Two-to-four unit properties, cooperative units, and manufactured homes
- Loan casefiles in which the value of the subject property provided to DU is $1,000,000 or greater
- HomeStyle® mortgage products (Renovation and Energy)

The following are **not eligible** for a value acceptance offer:

- Texas 50(a)6 loans
- When the lender has any reason to believe an appraisal is warranted
- Construction and construction-to-permanent loans
- Two-to-four unit properties, cooperative units, and manufactured homes
- Loan casefiles in which the value of the subject property provided to DU is $1,000,000 or greater
- Leasehold properties
- Community land trust homes or other properties with resale restrictions
- DU loan casefiles that receive an ineligible recommendation
- Loans for which the mortgage insurance provider requires an appraisal
- Loans for which rental income from the subject property is used to qualify

*The majority of transactions will not receive a value acceptance offer; they will require use of one of the value determination methods involving a qualified residential appraiser as described earlier.
