

Fannie Mae Hurricane Milton Exposure

The tables below provide the following for our outstanding Single-Family Connecticut Avenue Securities® (CAS) and Credit Insurance Risk Transfer™ (CIRT™) transactions:

- Active unpaid principal balance (UPB) percentage secured by properties located in Federal Emergency Management Agency (FEMA) counties designated for Hurricane Milton Individual Assistance (IA).
- Percentage of FEMA counties UPB designated for Hurricane Milton IA located in Special Flood Hazard Areas (SFHA).
- Deal-level estimates of the percentage of UPB where Fannie Mae has determined that the underlying properties have potentially been damaged by Hurricane Milton*.
- Percentage of UPB with potential damage* from Hurricane Milton located in SFHAs.
- Percentage of FEMA counties UPB designated for Hurricane Milton IA also designated as a FEMA County for Hurricane Helene as of October 16, 2024.
- Percentage of UPB with potential damage from Hurricane Milton also in an area determined to be potentially damaged* by Hurricane Helene as of October 16, 2024.

The list of FEMA counties designated for IA is as of October 16, 2024.

CRT Weighted Average Summary:

**This analysis provides the estimated percentage of UPB of the underlying properties located in areas that Fannie Mae has determined may have experienced hurricane-force winds, storm surge, or rain-driven flood due to Hurricane Milton and Helene. The figures were derived based principally on information about geographic areas affected by the storms. The figures do not purport to include all properties that were impacted by the storms and may include properties that were not impacted. In addition, flooding and other storm related hazards continue to cause damage to properties in surrounding areas, so properties that are not currently impacted may be impacted in the future. In addition, it is not certain that all loans associated with properties impacted by the storms will experience losses. These figures have been updated as of October 16, 2024.*
