

CRT Supplemental File - Glossary and File Layout

Field Position	Field Name	Description	Respective Disclosure Notes	Type	Max Length
1	Reference Pool ID	A unique identifier for the reference pool.		ALPHA-NUMERIC	X(4)
2	Loan Identifier	A unique identifier for the mortgage loan.	The Loan Identifier does not correspond to other mortgage loan identifiers found in existing Fannie Mae disclosures.	ALPHA-NUMERIC	X(12)
3	Monthly Reporting Period	The month and year that pertains to the servicer's cut-off period for mortgage loan information.		DATE	MMYYYY
4	Current VantageScore® 4.0	A numerical value used by the financial services industry to evaluate the quality of borrower credit. Credit scores are typically based on a proprietary statistical model that is developed for use by credit data repositories. These credit repositories apply the model to borrower credit information to arrive at a credit score. When this term is used by Fannie Mae, it is referring to VantageScore® 4.0 Score provided by Equifax Inc and is distinct from the VantageScore® 4.0 Score referenced in Fannie Mae's Selling Guide.	Represents the most recently available VantageScore® 4.0 Score provided by Equifax to Fannie Mae for the reference loan. Such credit scores will be published as the mid point within a 5 point range. The lowest representative credit score of all borrowers will be disclosed. If the score is unknown, the value will be blank.	NUMERIC	9(3)
5	Origination Fannie Score™	The Fannie Score used by DU during its credit risk assessment of a casefile submission. The Fannie Score is generated from Credit Repository data.	The credit score used by Fannie Mae to evaluate one or more borrowers during the loan origination process. The Fannie Score is generated from available borrower level Credit Repository data. This evaluation is done for each borrower on the loan. The average representative credit score of all borrowers will be disclosed. If the score is unknown, the value will be blank.	NUMERIC	9(3)
