Information is preliminary and subject to final collateral and legal review. The analyses, calculations and valuations herein are based on certain assumptions and data provided by third parties that may vary from the actual characteristics of the final collateral. Investors should rely on the information contained in the final prospectus.
(1) The principal amounts and notional amounts presented in this term sheet are approximate and subject to a $+/-5 \%$ variance. Weighted average lives and principal windows with respect to the Class $1 \mathrm{M}-1$ Notes, Class $1 \mathrm{M}-2$ Notes, Class $2 \mathrm{M}-1$ Notes and Class 2M-2 Notes (together, the "Offered Notes") assume that no Credit Events or Modification Events occur, prepayments occur at the pricing speed of $10 \%$ CPR (calculated from the Closing Date), the Offered Notes pay on the 25 th day of each month beginning in November 2015, and the Early Redemption Option is exercised on the Payment Date in October 2025.
(2) Each Class of Offered Notes will be sold at a price of par.
(3) The Class Principal Balance of any remaining Group 1 Notes will be paid in full on the earlier to occur of the Group 1 Early Redemption Date, if any, and the Maturity Date. Similarly, the Class Principal Balance of any remaining Group 2 Notes will be paid in full on the earlier to occur of the Group 2 Early Redemption Date, if any, and the Maturity Date. In addition, on the

Recovery Election Date, if any, for a Group of Notes, Holders of Written-down Notes may elect either (x) to receive their proportionate shares of the related Projected Recovery Amount on such Recovery Election Date or (y) to receive their proportionate shares of the Liquidation Recovery Amount on the applicable Liquidation Date.
(4) The Class 1A-H Reference Tranche, Class 1M-1H Reference Tranche, Class 1M-2H Reference Tranche, Class 1B-H Reference Tranche, Class 2A-H Reference Tranche, Class 2M-1H Reference Tranche, Class 2M-2H Reference Tranche and Class 2B-H Reference Tranche will not have corresponding Notes and will be referenced only in connection with making calculations of principal payments required to be made by Fannie Mae and reductions and increases in the principal amounts of the Notes.
(5) The Class 1M-1 Notes, Class 1M-2 Notes, Class 2M-1 Notes and Class 2M-2 Notes will have corresponding Reference Tranches for the purpose of making calculations of principal payments required to be made by Fannie Mae and reductions and increases in the principal amounts of the Notes.
(6) The Class 1A-H Notes will have an initial subordination percentage of $4.00 \%$, with a required subordination percentage of $4.75 \%$. The Class 2A-H Notes will have an initial subordination percentage of $4.00 \%$, with a required subordination percentage of $4.75 \%$.
(7) The Class 1B-H and Class 2B-H Reference Tranches are assigned class coupons solely for purposes of calculations in connection with the allocation of Modification Loss Amounts to the Mezzanine and Subordinate Reference Tranches.

## Transaction Overview

The Connecticut Avenue Securities, Series 2015-C04 (the "Notes") will be unsecured general obligations of Fannie Mae, or the "Issuer", and will be subject to the credit and principal payment risk of the related portion of a certain pool (the "Reference Pool") of residential mortgage loans (the "Reference Obligations") held in various Fannie Mae-guaranteed MBS. The transaction is designed to furnish credit protection to Fannie Mae with respect to Reference Obligations that experience losses relating to Credit Events and Modification Events. The actual cash flows from the Reference Obligations will never be paid to the holders of the Notes (the "Noteholders" or "Holders," and each, a "Noteholder" or a "Holder"). Fannie Mae will make monthly payments of accrued interest and periodic payments of principal to the Noteholders. The Notes will be issued at par and will be 12.5-year, uncapped LIBOR-based floaters.
On the Recovery Election Date, if any, for a Group, the Class Principal Balances of all outstanding Notes in that Group will be paid in full. If there are unrecovered losses on any Offered Notes as of the related Recovery Election Date, holders of those Notes will be entitled to certain projected recovery payments on that date or, alternatively, certain liquidation payments 30 months following such date, subject to the conditions described in "RECOVERY ELECTION DATES."

The Reference Obligations will be divided into two "Loan Groups". The Class 1M-1 Notes and Class 1M-2 Notes (collectively, the "Group 1 Classes" or "Group 1 Notes") relate to the Reference Obligations in "Loan Group 1". The Class 2M-1 Notes and Class 2M-2 Notes (collectively, the "Group 2 Classes" or "Group 2 Notes") relate to the Reference Obligations in "Loan Group 2". The transaction is structured to provide credit protection to Fannie Mae with respect to Reference Obligations as to which certain credit events occur. This credit protection is achieved in part by allowing Fannie Mae to reduce the outstanding class principal balances of the Notes related to the designated Credit Events and Modification Events on the Reference Obligations in the related Loan Group. The occurrence of certain Credit Events or Modification Events on the Reference Obligations could result in write-downs of the class principal balances of the Notes to the extent losses are realized on such Reference Obligations as a result of these events. In addition, the interest entitlement of the Notes may be subject to reduction based on the occurrence of Modification Events on these Reference Obligations to the extent losses are realized with respect thereto. All cash flow calculations performed with respect to Loan Group 1 will affect the Group 1 Classes only, and all cash flow calculations performed with respect to Loan Group 2 will affect the Group 2 Classes only.
Although the Notes will be unsecured general obligations of Fannie Mae, and Fannie Mae alone will make all of the principal and interest payments on the Notes, the transaction has been structured so that the capital structure and cash flow allocations relative to principal payments of the Notes are reflective of private label senior/subordinate residential mortgage backed securities ("RMBS"). Accordingly, subordinate interests will not receive allocations in respect of unscheduled principal unless target credit enhancement and delinquency percentages have been maintained. However, unlike securities in some senior/subordinate private label residential mortgage-backed securitizations, the principal payments required to be paid by Fannie Mae on the Notes will be based in part on the principal that is actually collected on the Reference Obligations in the related Loan Group, rather than on the entire amount of scheduled payments due on those Reference Obligations as further described herein.

Capitalized terms used in this term sheet are defined when first used or in the "GLOSSARY OF CERTAIN DEFINED TERMS."

Connecticut Avenue Securities, Series 2015-C04

## Maturity Date

## Early Redemption Option

## Group 1 Early Redemption Date

On the Payment Date in April 2028, the Issuer will be obligated to retire the Notes by paying an amount equal to their full remaining Class Principal Balances, plus accrued and unpaid interest. However, the Group 1 Notes or the Group 2 Notes may be paid in full prior to the Maturity Date on (a) the Payment Date on which the Early Redemption Option, if any, is exercised with respect to such Notes or (b) the Payment Date on which the aggregate Class Principal Balance of all outstanding Group 1 Notes or Group 2 Notes, as applicable, is otherwise reduced to zero.

## Group 1

The Issuer may redeem the Class $1 \mathrm{M}-1$ Notes and Class $1 \mathrm{M}-2$ Notes on any Payment Date on or after the earlier to occur of (i) the Payment Date on which the aggregate unpaid principal balance of the Reference Obligations in Loan Group 1 is less than or equal to $10 \%$ of the Loan Group 1 Cut-off Date Balance or (ii) the Payment Date occurring in October 2025, by paying an amount equal to the outstanding Class Principal Balance of the Class $1 \mathrm{M}-1$ Notes and Class $1 \mathrm{M}-2$ Notes, plus accrued and unpaid interest and related unpaid fees and expenses of the Global Agent. In addition, Holders of the Group 1 Notes may be entitled to receive their proportionate shares of the Group 1 Projected Recovery Amount, if any, on that date as described under "THE NOTES - Principal Payment."

## Group 2

The Issuer may redeem the Class $2 \mathrm{M}-1$ Notes and Class $2 \mathrm{M}-2$ Notes on any Payment Date on or after the earlier to occur of (i) the Payment Date on which the aggregate unpaid principal balance of the Reference Obligations in Loan Group 2 is less than or equal to $10 \%$ of the Loan Group 2 Cut-off Date Balance or (ii) the Payment Date occurring in October 2025, by paying an amount equal to the outstanding Class Principal Balance of the Class $2 \mathrm{M}-1$ Notes and Class $2 \mathrm{M}-2$ Notes, plus accrued and unpaid interest and related unpaid fees and expenses of the Global Agent. In addition, Holders of the Group 2 Notes may be entitled to receive their proportionate shares of the Group 2 Projected Recovery Amount, if any, on that date as described under "THE NOTES - Principal Payment."

The Payment Date, if any, on which the Group 1 Notes are redeemed by the Issuer pursuant to the Early Redemption Option for the Group 1 Notes.

## Group 2 Early Redemption Date

Group 1 Termination Date

Group 2 Termination Date

The Payment Date, if any, on which the Group 2 Notes are redeemed by the Issuer pursuant to the Early Redemption Option for the Group 2 Notes.

The Group 1 Notes will no longer be outstanding upon the date which is the earliest of:
(1) the Maturity Date;
(2) the Group 1 Early Redemption Date; and
(3) the Payment Date on which the aggregate initial Class Principal Balance (without giving effect to any allocations of Tranche Write-down Amounts or Tranche Write-up Amounts related to the Group 1 Classes on such Payment Date and all prior Payment Dates) and accrued and unpaid interest due on the Class $1 \mathrm{M}-1$ and Class 1M-2 Notes plus related unpaid fees and expenses of the Global Agent have otherwise been paid in full.

In addition, in the event the requisite Holders of a Class of Group 1 Notes elect to receive their proportionate shares of the Group 1 Liquidation Recovery Amount, if applicable, such amount will be paid on the Group 1 Liquidation Date.

The Group 2 Notes will no longer be outstanding upon the date which is the earliest of:
(1) the Maturity Date;
(2) the Group 2 Early Redemption Date; and
(3) the Payment Date on which the aggregate initial Class Principal Balance (without giving effect to any allocations of Tranche Write-down Amounts or Tranche Write-up Amounts related to the Group 2 Classes on such Payment Date and all prior Payment Dates) and accrued and unpaid interest due on the Class $2 \mathrm{M}-1$ and Class 2M-2 Notes plus related unpaid fees and expenses of the Global Agent have otherwise been paid in full.

In addition, in the event the requisite Holders of a Class of Group 2 Notes elect to receive their proportionate shares of the Group 2 Liquidation Recovery Amount, if applicable, such amount will be paid on the Group 2 Liquidation Date.

Transaction Termination

The transaction will terminate on the date which is the later of the Group 1 Termination Date and the Group 2 Termination

Notes Acquired by Fannie Mae

## STRUCTURAL <br> FEATURES

Scheduled Principal

## Unscheduled Principal

With respect to each Payment Date and Loan Group:
(a) all partial principal prepayments on the related Reference Obligations in the related Loan Group collected during the related Reporting Period, plus
(b) the aggregate unpaid principal balance of all related Reference Obligations that became subject to Reference Pool Removals during the related Reporting Period (excluding (i) Credit Event Reference Obligations and (ii) the portions of any prepayments in full that consist of scheduled principal collections), plus
(c) decreases in the unpaid principal balance of all Reference Obligations in the related Loan Group as the result of loan modification or data corrections, plus
(d) all scheduled principal collections, if any, for any Reference Obligations in the related Loan Group that have been removed from the related MBS, minus
(e) increases in the unpaid principal balances of all Reference Obligations in the related Loan Group as the result of loan modifications, reinstatements due to error, or data corrections.

In the event (e) above exceeds the sum of (a) through (d), the Unscheduled Principal for such Payment Date with respect to the related Loan Group will be zero, and the Class 1A-H Notional Amount or the Class 2A-H Notional Amount, as applicable, will be increased by the amount of such excess. In the event that Fannie Mae ever employs a policy that permits or requires principal forgiveness as a loss mitigation alternative, any principal that is forgiven with respect to a Reference Obligation will decrease the unpaid principal balance of such Reference

Obligation pursuant to clause (c) above.

## Senior Reduction <br> Amount

## Subordinate Reduction Amount

With respect to each Payment Date, if any of the Minimum Credit Enhancement Test and the Delinquency Test for a Loan Group is not satisfied, the sum of:
(a) the Senior Percentage of the Scheduled Principal for such Payment Date and Loan Group;
(b) $100 \%$ of the Unscheduled Principal for such Payment Date and Loan Group; and
(c) 100\% of the Recovery Principal for such Payment Date and Loan Group.

As noted above, the Minimum Credit Enhancement Test will not be satisfied for either Loan Group at issuance and may not be satisfied for an indefinite period thereafter.

With respect to each Payment Date, if the Minimum Credit Enhancement Test and the Delinquency Test for a Loan Group are satisfied, the sum of:
(a) the Senior Percentage of the Scheduled Principal for such Payment Date and Loan Group;
(b) the Senior Percentage of the Unscheduled Principal for such Payment Date and Loan Group; and
(c) $100 \%$ of the Recovery Principal for such Payment Date and Loan Group.

The "Senior Percentage" for a Payment Date and Loan Group is the percentage equivalent of a fraction, the numerator of which is the Class Notional Amount of the related Senior Reference Tranche immediately prior to such Payment Date and the denominator of which is the aggregate unpaid principal balance of the Reference Obligations in that Loan Group at the end of the previous Reporting Period.

With respect to each Payment Date and Loan Group, the sum of the Scheduled Principal, Unscheduled Principal and Recovery Principal for such Payment Date and Loan Group, less the Senior Reduction Amount for such Loan Group.

## Group 1

On each Payment Date prior to the Group 1 Termination Date, the Senior Reduction Amount with respect to Loan Group 1 will be allocated to the Group 1 Senior Reference Tranche until its Class Notional Amount is reduced to zero, and then to the Group 1

Subordinate Reference Tranches, in order of seniority per Allocation of Subordinate Reduction Amount for Group 1.

Because the Class $1 \mathrm{M}-1$ and Class $1 \mathrm{M}-2$ Notes correspond to the Class 1M-1 and Class 1M-2 Reference Tranches, respectively, any portion of the Senior Reduction Amount with respect to Loan Group 1 that is allocated to the Class $1 \mathrm{M}-1$ or Class $1 \mathrm{M}-2$ Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class $1 \mathrm{M}-1$ or Class $1 \mathrm{M}-2$ Notes, as applicable.

## Group 2

On each Payment Date prior to the Group 2 Termination Date, the Senior Reduction Amount with respect to Loan Group 2 will be allocated to the Group 2 Senior Reference Tranche until its Class Notional Amount is reduced to zero, and then to the Group 2 Subordinate Reference Tranches, in order of seniority per Allocation of Subordinate Reduction Amount for Group 2.

Because the Class 2M-1 and Class 2M-2 Notes correspond to the Class 2M-1 and Class 2M-2 Reference Tranches, respectively, any portion of the Senior Reduction Amount with respect to Loan Group 2 that is allocated to the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$
Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$ Notes, as applicable.

## Allocation of Subordinate

 Reduction Amount
## Group 1

On each Payment Date prior to the Group 1 Termination Date, the Subordinate Reduction Amount with respect to Loan Group 1 will be allocated to the Group 1 Subordinate Reference Tranches:
(i) first, concurrently, on a pro rata basis based on their Class Notional Amounts, to the Class 1M-1 and Class 1M-1H Reference Tranches until their Class Notional Amounts have been reduced to zero;
(ii) second, concurrently, on a pro rata basis based on their Class Notional Amounts, to the Class 1M-2 and Class 1M-2H Reference Tranches until their Class Notional Amounts have been reduced to zero; and
(iii) third, to the Class 1B-H Reference Tranche until its Class Notional Amount has been reduced to zero.

Any Subordinate Reduction Amount with respect to Loan Group 1 remaining after the allocation in the immediately preceding
sentence will be allocated to reduce the Class Notional Amount of the Class 1A-H Reference Tranche.

Because the Class 1M-1 and Class 1M-2 Notes correspond to the Class 1M-1 and Class 1M-2 Reference Tranches, respectively, any portion of the Subordinate Reduction Amount with respect to Loan Group 1 that is allocated to the Class $1 \mathrm{M}-1$ or Class $1 \mathrm{M}-2$
Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class $1 \mathrm{M}-1$ or Class $1 \mathrm{M}-2$ Notes, as applicable.

## Group 2

On each Payment Date prior to the Group 2 Termination Date, the Subordinate Reduction Amount with respect to Loan Group 2 will be allocated to the Group 2 Subordinate Reference Tranches:
(i) first, concurrently, on a pro rata basis based on their Class Notional Amounts, to the Class 2M-1 and Class 2M-1H Reference Tranches until their Class Notional Amounts have been reduced to zero;
(ii) second, concurrently, on a pro rata basis based on their Class Notional Amounts, to the Class 2M-2 and Class 2M2H Reference Tranches until their Class Notional Amounts have been reduced to zero; and
(iii) third, to the Class 2B-H Reference Tranche until its Class Notional Amount has been reduced to zero.

Any Subordinate Reduction Amount with respect to Loan Group 2 remaining after the allocation in the immediately preceding sentence will be allocated to reduce the Class Notional Amount of the Class 2A-H Reference Tranche.

Because the Class 2M-1 and Class 2M-2 Notes correspond to the Class 2M-1 and Class 2M-2 Reference Tranches, respectively, any portion of the Subordinate Reduction Amount with respect to Loan Group 2 that is allocated to the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$ Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$ Notes, as applicable.

## Loss Allocation Framework

## General Upon the occurrence of Modification Events affecting the Reference Obligations in Group 1 and to the extent that losses are realized with respect thereto, the interest entitlements of the Group 1 Notes will be subject to reduction and the Class Principal Balances thereof will be subject to write-downs as further

described under "Allocation of Modification Loss Amounts-Group 1" below. Similarly, upon the occurrence of Modification Events affecting the Reference Obligations in Group 2 and to the extent that losses are realized with respect thereto, the interest entitlements of the Group 2 Notes will be subject to reduction and the Class Principal Balances thereof will be subject to write-downs as further described under "Allocation of Modification Loss Amounts-Group 2" below. Any such reductions or write-downs will be applied first to the most subordinated Class in the related Group of Notes with an outstanding Class Principal Balance (provided that the Class Notional Amount of the Class 1B-H or Class 2B-H Reference Tranche, as applicable, has been reduced to zero).

Upon the occurrence of Credit Events affecting the Reference Obligations in Group 1 and to the extent that losses are realized with respect thereto, the Class Principal Balances of the Group 1 Notes will be subject to write-downs as further described under "Allocation of Tranche Write-down Amounts-Group 1" below. Similarly, upon the occurrence of Credit Events affecting the Reference Obligations in Group 2 and to the extent that losses are realized with respect thereto, the Class Principal Balances of the Group 2 Notes will be subject to write-downs as further described under "Allocation of Tranche Write-down Amounts-Group 2" below. Any such write-downs will be allocated first to the most subordinate Class in the related Group of Notes with an outstanding Class Principal Balance (provided that the Class Notional Amount of the Class 1B-H or Class 2B-H Reference Tranche, as applicable, has been reduced to zero).

## Modifications

## Modification Event

Reference Obligations that undergo a temporary or permanent modification will not be removed from the Reference Pool unless they otherwise meet the criteria for Reference Pool Removal.

In the event that Fannie Mae ever employs a policy that permits or requires principal forgiveness as a loss mitigation alternative, any reduction in the principal balance of a Reference Obligation as the result of principal forgiveness will be treated as Unscheduled Principal. However, if the Reference Obligation subsequently becomes a Credit Event Reference Obligation, the related negative adjustment will be included in the Credit Event Net Loss for the Reference Obligation.

With respect to any Reference Obligation, a forbearance or certain mortgage rate modifications relating to such Reference Obligation. It is noted that in the absence of a forbearance or certain mortgage rate modifications, a term extension on a Reference Obligation will
not constitute a Modification Event.

Modification Loss Amount

With respect to each Payment Date and any Reference Obligation that has experienced a Modification Event, the excess, if any, of:
(i) one-twelfth of the Original Accrual Rate multiplied by the unpaid principal balance of such Reference Obligation, over
(ii) one-twelfth of the Current Accrual Rate multiplied by the interest bearing unpaid principal balance of such Reference Obligation.

## Allocation of Modification Loss Amounts <br> Group 1

On each Payment Date on or prior to the Group 1 Termination Date, the Preliminary Principal Loss Amount, Preliminary Tranche Write-down Amount, Preliminary Tranche Write-up Amount and Preliminary Class Notional Amount for Group 1 will be computed prior to the Allocation of the Modification Loss Amount with respect to Loan Group 1.

On each Payment Date prior to the Group 1 Termination Date, the Modification Loss Amount, if any, for such Payment Date and Loan Group 1 will be allocated in the following order of priority:
first, to the Class 1B-H Reference Tranche until the amount allocated to the Class 1B-H Reference Tranche is equal to the Class 1B-H Reference Tranche Interest Accrual Amount;
second, to the Class 1B-H Reference Tranche until the amount allocated to the Class 1B-H Reference Tranche is equal to the Preliminary Class Notional Amount of the Class 1B-H Reference Tranche for such Payment Date;
third, to the Class $1 \mathrm{M}-2$ and Class $1 \mathrm{M}-2 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class 1M-2 Reference Tranche is equal to the Class 1M-2 Notes Interest Accrual Amount;
fourth, to the Class $1 \mathrm{M}-2$ and Class $1 \mathrm{M}-2 \mathrm{H}$ Reference Tranches, pro rata, based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class 1M-2 and Class 1M-2H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class

1M-2 and Class 1M-2H Reference Tranches for such Payment Date;
fifth, to the Class 1M-1 and Class $1 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class 1M-1 Reference Tranche is equal to the Class $1 \mathrm{M}-1$ Notes Interest Accrual Amount; and
sixth, to the Class $1 \mathrm{M}-1$ and Class $1 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class $1 \mathrm{M}-1$ and Class $1 \mathrm{M}-1 \mathrm{H}$ Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class 1M-1 and Class 1M-1H Reference Tranches for such Payment Date.

Any amounts allocated to the Class $1 \mathrm{M}-1$ or Class 1M-2 Reference Tranches in the fifth or third priority above will result in a corresponding reduction of the Interest Payment Amount of the Class 1M-1 or Class 1M-2 Notes, as applicable.

## Group 2

On each Payment Date on or prior to the Group 2 Termination Date, the Preliminary Principal Loss Amount, Preliminary Tranche Write-down Amount, Preliminary Tranche Write-up Amount and Preliminary Class Notional Amount for Group 2 will be computed prior to the Allocation of the Modification Loss Amount with respect to Loan Group 2.

On each Payment Date prior to the Group 2 Termination Date, the Modification Loss Amount, if any, for such Payment Date and Loan Group 2 will be allocated in the following order of priority:
first, to the Class 2B-H Reference Tranche until the amount allocated to the Class 2B-H Reference Tranche is equal to the Class 2B-H Reference Tranche Interest Accrual Amount;
second, to the Class 2B-H Reference Tranche until the amount allocated to the Class 2B-H Reference Tranche is equal to the Preliminary Class Notional Amount of the Class 2B-H Reference Tranche for such Payment Date;
third, to the Class $2 \mathrm{M}-2$ and Class $2 \mathrm{M}-2 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class 2M-2 Reference Tranche is equal to the Class 2M-2 Notes Interest

Accrual Amount;
fourth, to the Class 2M-2 and Class 2M-2H Reference Tranches, pro rata, based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class 2M-2 and Class 2M-2H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class 2M-2 and Class 2M-2H Reference Tranches for such Payment Date;
fifth, to the Class $2 \mathrm{M}-1$ and Class $2 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts immediately prior to such Payment Date, until the amount allocated to the Class $2 \mathrm{M}-1$ Reference Tranche is equal to the Class $2 \mathrm{M}-1$ Notes Interest Accrual Amount; and
sixth, to the Class $2 \mathrm{M}-1$ and Class $2 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Preliminary Class Notional Amounts for such Payment Date, until the aggregate amount allocated to the Class $2 \mathrm{M}-1$ and Class 2M-1H Reference Tranches is equal to the aggregate of the Preliminary Class Notional Amounts of the Class 2M-1 and Class 2M-1H Reference Tranches for such Payment Date.

Any amounts allocated to the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$ Reference Tranches in the fifth or third priority above will result in a corresponding reduction of the Interest Payment Amount of the Class 2M-1 or Class 2M-2 Notes, as applicable.

Principal Loss Amount
With respect to any Payment Date and Loan Group, the sum of:
(a) the aggregate amount of Credit Event Net Losses for all Credit Event Reference Obligations in such Loan Group for the related Reporting Period;
(b) the aggregate amount of court-approved principal reductions ("cramdowns") on the Reference Obligations in such Loan Group in the related Reporting Period ;
(c) subsequent losses on any Reference Obligation in such Loan Group that became a Credit Event Reference Obligation on a prior Payment Date and with respect to which Net Liquidation Proceeds have already been determined; and
(d) Modification Loss Amounts allocated to reduce the Notional Principal Amounts on the Reference Tranches relating to the Notes.

Principal Recovery Amount

With respect to any Payment Date and Loan Group, the sum of:
(a) the aggregate amount of Credit Event Net Losses for all Reversed Credit Event Reference Obligations in such Loan Group for the related Reporting Period;
(b) subsequent recoveries on any Reference Obligation in such Loan Group that became a Credit Event Reference Obligation on a prior Payment Date and with respect to which Net Liquidation Proceeds have already been determined;
(c) the aggregate amount of the Credit Event Net Gains of all Credit Event Reference Obligations in such Loan Group for the related Reporting Period; and
(d) the applicable portion of any amounts received by Fannie Mae during the related Reporting Period on settlements relating to claims arising from breaches of origination representations and warranties that Fannie Mae enters into with a loan seller or servicer in lieu of requiring such loan seller or servicer to repurchase a specified pool of mortgage loans that includes one or more Reference Obligations.

With respect to any Payment Date on or before the related Group Termination Date and any Reference Obligation, the first to occur of any of the following events during the related Reporting Period, as reported by the servicer to Fannie Mae, if applicable: (i) a short sale is settled, (ii) the related mortgaged property is sold to a third party during the foreclosure process, (iii) an REO disposition occurs, (iv) a mortgage note sale is executed on a seriously delinquent loan prior to foreclosure or (v) the related mortgage note is charged off. With respect to any Credit Event Reference Obligation, there can only be one occurrence of a Credit Event; provided, that one additional separate Credit Event can occur with respect to each instance of such Credit Event Reference Obligation becoming a Reversed Credit Event Reference Obligation.

Notwithstanding the foregoing, Fannie Mae at its option may amend the transaction agreements to provide that either ( x ) the mortgage note sales referred to in clause (iv) above will thereafter be prohibited with respect to the Reference Obligations or (y) the mortgage note sales referred to in clause (iv) above will thereafter be treated as Reference Pool Removals rather than as Credit Events.

Tranche<br>Write-down Amount

## Tranche Write-up Amount

## Allocation of Tranche Write-down Amounts

With respect to each Payment Date and Loan Group, the excess, if any, of the Principal Loss Amount for such Payment Date and Loan Group over the Principal Recovery Amount for such Payment Date and Loan Group.

With respect to each Payment Date, the Class Notional Amount of each Senior Reference Tranche will be increased by the excess, if any, of the Tranche Write-down Amount for the related Loan Group for such Payment Date over the Credit Event Amount for the related Loan Group for such Payment Date.

With respect to each Payment Date and Loan Group, the excess, if any, of the Principal Recovery Amount for such Payment Date and Loan Group over the Principal Loss Amount for such Payment Date and Loan Group.

## Group 1

On each Payment Date on or prior to the Group 1 Termination Date, after allocation of the Senior Reduction Amount and Subordinate Reduction Amount with respect to Loan Group 1, the Tranche Write-down Amount for the Group 1 Classes, if any, for such Payment Date will be allocated, first, to reduce any Overcollateralization Amount for such Payment Date, until such Overcollateralization Amount is reduced to zero and, second, to reduce the Class Notional Amount of each Group 1 Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:
(i) first, to the Class 1B-H Reference Tranche,
(ii) second, to the Class 1M-2 and Class 1M-2H Reference Tranches, pro rata, based on their Class Notional Amounts,
(iii) third, to the Class 1M-1 and Class 1M-1H Reference Tranches, pro rata, based on their Class Notional Amounts, and
(iv) fourth, to the Class 1A-H Reference Tranche.

Because the Class 1M-1 and Class 1M-2 Notes correspond to the Class 1M-1 and Class 1M-2 Reference Tranches, respectively, any Tranche Write-down Amounts allocated to the Class 1M-1 or

Class 1M-2 Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class $1 \mathrm{M}-1$ or Class 1M-2 Notes, as applicable.

## Group 2

On each Payment Date on or prior to the Group 2 Termination Date, after allocation of the Senior Reduction Amount and Subordinate Reduction Amount with respect to Loan Group 2, the Tranche Write-down Amount for the Group 2 Classes, if any, for such Payment Date will be allocated, first, to reduce any Overcollateralization Amount for such Payment Date, until such Overcollateralization Amount is reduced to zero and, second, to reduce the Class Notional Amount of each Group 2 Reference Tranche in the following order of priority, in each case until its Class Notional Amount is reduced to zero:
(i) first, to the Class 2B-H Reference Tranche,
(ii) second, to the Class $2 \mathrm{M}-2$ and Class $2 \mathrm{M}-2 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts,
(iii) third, to the Class $2 \mathrm{M}-1$ and Class $2 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts, and
(iv) fourth, to the Class 2A-H Reference Tranche.

Because the Class 2M-1 and Class 2M-2 Notes correspond to the Class 2M-1 and Class 2M-2 Reference Tranches, respectively, any Tranche Write-down Amounts allocated to the Class 2M-1 or Class 2M-2 Reference Tranches will result in a corresponding reduction in the Class Principal Balance of the Class 2M-1 or Class 2M-2 Notes, as applicable.

## Allocation of Tranche Write-up Amounts

## Group 1

On each Payment Date on or prior to the Group 1 Termination Date, after allocation of the related Senior Reduction Amount and Subordinate Reduction Amount and Tranche Write-down Amounts, the related Tranche Write-up Amount, if any, for such Payment Date will be allocated to increase the Class Notional Amount of each Group 1 Reference Tranche in the following order of priority until the cumulative Tranche Write-up Amount so allocated is equal to the cumulative Tranche Write-down Amount previously allocated to such Group 1 Reference Tranche on or prior to such Payment Date:
(i) first, to the Class 1A-H Reference Tranche,
(ii) second, to the Class $1 \mathrm{M}-1$ and Class 1M-1H Reference Tranches, pro rata, based on their Class Notional Amounts,
(iii) third, to the Class 1M-2 and Class 1M-2H Reference Tranches, pro rata, based on their Class Notional Amounts, and
(iv) fourth, to the Class 1B-H Reference Tranche.

Because the Class $1 \mathrm{M}-1$ and Class $1 \mathrm{M}-2$ Notes correspond to the Class 1M-1 and Class 1M-2 Reference Tranches, respectively, any Tranche Write-up Amounts allocated to the Class 1M-1 or Class 1M-2 Reference Tranches will result in a corresponding increase in the Class Principal Balance of the Class $1 \mathrm{M}-1$ or Class $1 \mathrm{M}-2$ Notes, as applicable.

## Group 2

On each Payment Date on or prior to the Group 2 Termination Date, after allocation of the related Senior Reduction Amount and Subordinate Reduction Amount and Tranche Write-down Amounts, the related Tranche Write-up Amount, if any, for such Payment Date will be allocated to increase the Class Notional Amount of each Group 2 Reference Tranche in the following order of priority until the cumulative Tranche Write-up Amount so allocated is equal to the cumulative Tranche Write-down Amount previously allocated to such Group 2 Reference Tranche on or prior to such Payment Date:
(i) first, to the Class 2A-H Reference Tranche,
(ii) second, to the Class $2 \mathrm{M}-1$ and Class $2 \mathrm{M}-1 \mathrm{H}$ Reference Tranches, pro rata, based on their Class Notional Amounts,
(iii) third, to the Class 2M-2 and Class 2M-2H Reference Tranches, pro rata, based on their Class Notional Amounts, and
(iv) fourth, to the Class 2B-H Reference Tranche.

Because the Class 2M-1 and Class 2M-2 Notes correspond to the Class 2M-1 and Class 2M-2 Reference Tranches, respectively, any Tranche Write-up Amounts allocated to the Class 2M-1 or Class 2M-2 Reference Tranches will result in a corresponding increase in the Class Principal Balance of the Class $2 \mathrm{M}-1$ or Class $2 \mathrm{M}-2$ Notes, as applicable.

To the extent that the Tranche Write-up Amount for a Loan Group on any Payment Date exceeds the Tranche Write-up Amount allocated to such Loan Group on such Payment Date, the excess (the "Write-up Excess") will be available as overcollateralization to offset any Tranche Write-down Amounts for such Loan Group on future Payment Dates prior to the allocation of such Tranche Write-down Amounts to reduce the Class Notional Amounts of the related Reference Tranches. On each Payment Date, the "Overcollateralization Amount" for a Loan Group equals (a) the aggregate amount of Write-up Excesses for such Loan Group for such Payment Date and all prior Payment Dates, minus (b) the aggregate amount of Overcollateralization Amounts used to offset Tranche Write-down Amounts for such Loan Group on all prior Payment Dates.

## Credit Event Reversals and Reference Pool Removals

## Reversed Credit Event Reference Obligation

With respect to any Payment Date and Loan Group, a Reference Obligation in the related Loan Group that was formerly in the Reference Pool and that became a Credit Event Reference Obligation in a prior Reporting Period and (i) that is repurchased by the lender or with respect to which the lender agrees to a full indemnification of Fannie Mae or provides a fee in lieu of repurchase for any identified Eligibility Defect, (ii) with respect to which the related lender has declared bankruptcy or has been put into receivership and an Eligibility Defect is identified that could otherwise have resulted in a repurchase or (iii) with respect to which a violation of certain specified Eligibility Criteria is discovered as a result of a data correction.

## Reference Pool Removals

A Reference Obligation will be removed (a "Reference Pool Removal") from the Reference Pool upon the occurrence of any of the following:
(1) the Reference Obligation becomes a Credit Event Reference Obligation; payment in full of the Reference Obligation; the Reference Obligation is seized pursuant to an eminent domain proceeding with respect to the underlying mortgage loan;
the lender repurchases the Reference Obligation, agrees to a full indemnification agreement or fee in lieu of repurchase for the Reference Obligation;
the discovery of any of certain specified violations of the Eligibility Criteria for such Reference Obligation as a
result of data correction; or the lender has declared bankruptcy or has been put into receivership and an Eligibility Defect is identified that could otherwise have resulted in a repurchase.

A Reference Obligation will be removed from the Reference Pool or will become a Reversed Credit Event Reference Obligation if a loan data change occurs that causes the Reference Obligation to no longer meet one or more of the criteria set forth in clauses (a), (e), (f), (g), (j), (k), (l) and (m) of the definition of Eligibility Criteria.

In addition, Fannie Mae at its option may amend the transaction agreements to provide, among other things, that the mortgage note sales referred to in clause (iv) under "Loss Allocation Framework - Credit Event" above will thereafter be treated as Reference Pool Removals rather than as Credit Events.

## Rep and Warrant Settlement Allocation

## Origination Rep and

 Warranty Settlement
## Rep and Warranty Settlement Amount

A settlement relating to claims arising from breaches of loan representations and warranties that Fannie Mae enters into with a seller or servicer in lieu of requiring such seller or servicer to repurchase a specified pool of Mortgage Loans that includes one or more Reference Obligations, whereby Fannie Mae has received the agreed-upon settlement proceeds from such seller or servicer.

For each Reference Obligation that is part of an Origination Rep and Warranty Settlement (including any Reference Obligation that may previously have been removed from the Reference Pool due to a Credit Event), the portion of the settlement amount determined to be attributable to such Reference Obligation. The determination will be made by Fannie Mae at or about the time of the settlement and will be verified by an independent third party as described below.

After completion of an Origination Rep and Warranty Settlement that includes any Reference Obligations, Fannie Mae will engage an independent third party to conduct an annual review to validate that the Rep and Warranty Settlement Amount corresponding to each Reference Obligation matches Fannie Mae's records for such settlement.

## MORTGAGE LOANS IN REFERENCE POOL

## Reference Pool

All of the Reference Obligations included in Loan Group 1 and

Loan Group 2 are listed in schedules attached to the prospectus.

## Reference <br> Obligations

Reference Pool<br>Eligibility Criteria

The Reference Pool represents the mortgage loans acquired by Fannie Mae during September, October and November of 2014 that meet the Eligibility Criteria, as defined below.

Each mortgage loan in the Reference Pool must satisfy the following criteria (the "Eligibility Criteria"):
(a) is a fully amortizing, fixed rate, first lien Mortgage Loan secured by a one- to four-unit property, town house, individual condominium unit, individual unit in a planned unit development, individual cooperative unit or manufactured home, with an original term of 301 to 360 months;
(b) was acquired by Fannie Mae between September 1, 2014 and November 30, 2014;
(c) has been 30 to 59 days delinquent no more than once from the date of acquisition to the Cut-off Date and has been current on each of the three consecutive payment dates immediately preceding the Cut-off Date;
(d) was not originated under Fannie Mae's Refi Plus program (Fannie Mae's Refi Plus program includes but is not limited to the Home Affordable Refinance Program);
(e) has an original combined loan-to-value ratio less than or equal to $97 \%$;
(f) as of the Cut-off Date, is not subject to an Origination Rep and Warranty Settlement;
(g) is not subject to any form of risk sharing with the loan seller (other than limited seller indemnification in certain cases);
(h) was not originated under certain non-standard programs;
(i) is a conventional loan (i.e. is not guaranteed by the Federal Housing Administration or the U.S. Department of Veterans Affairs);
(j) with respect to Reference Obligations in Loan Group 1 only, has an original loan-to-value ratio that is (i) greater than $60 \%$ and (ii) less than or equal to $80 \%$;
(k) with respect to Reference Obligations in Loan Group 1 only, is not covered by mortgage or pool insurance;
(1) with respect to Reference Obligations in Loan Group 2 only, has an original loan-to-value ratio that is (i) greater than $80 \%$ and (ii) less than or equal to $97 \%$; and
(m) with respect to Reference Obligations in Loan Group 2 only, (i) is not covered by pool insurance and (ii) is covered by private mortgage insurance as of the Cut-off Date or was covered by private mortgage insurance at the time of acquisition that has since been cancelled or otherwise eliminated by the borrower as permitted under Fannie Mae's Servicing Guide or in the case of certain Reference Obligations secured by mortgaged properties in the State of New York, was not covered by private mortgage insurance at the time of acquisition as permitted under Fannie Mae's Selling Guide.

## Reference Pool Selection Process

Fannie Mae determined the composition of the Reference Pool utilizing a multi-step process. All mortgage loans that Fannie Mae acquired between September 1, 2014 and November 30, 2014 (the "September - November 2014 Acquisitions") were divided into two segments on a random basis. The first and second segments included loans representing approximately $85.00 \%$ and $15.00 \%$, respectively, of the September - November 2014 Acquisitions (measured by unpaid principal balance at the time of acquisition). The loans included in the first segment (representing approximately $85.00 \%$ of the September - November 2014 Acquisitions) were made available for potential selection for the Reference Pool (such loans, the "Available Loans"). The loans included in the second segment (representing approximately $15.00 \%$ of the September - November 2014 Acquisitions) were made available for potential selection for an unrelated Fannie Mae credit risk transaction and will not be included in the Reference Pool.

Fannie Mae thereafter selected for inclusion in Loan Group 1 all Available Loans that met the Eligibility Criteria described in (a) through (k) of the definition thereof and selected for inclusion in Loan Group 2 all Available Loans that met the Eligibility Criteria described in (a) through (i), (l) and (m) of the definition thereof. The Reference Obligations in Loan Group 1 and Loan Group 2, collectively, constitute the Reference Pool.

The "Initial Cohort Pool" represents all of the Available Loans that met the Eligibility Criteria at the time of their acquisition by Fannie Mae (other than those Eligibility Criteria that are determined as of the Cut-Off Date). The table below summarizes the loan count, original unpaid principal balance and key attributes of the mortgage loans included in the Initial Cohort Pool.

| Category | Loan Count | Aggregate Original Loan Balance |
| :---: | :---: | :---: |

The table below summarizes the loans in the Initial Cohort Pool having original loan-to-value ratios greater than $60 \%$ and less than or equal to $80 \%$ and which were excluded from the Reference Pool due to failure to satisfy the delinquency-related Eligibility Criteria, payoffs and quality control removals.

(2) Remain subject to Fannie Mae's post-purchase QC Process, as of September 24, 2015 and therefore excluded from eligibility.

The table below summarizes the loans in the Initial Cohort Pool having original loan-to-value ratios greater than $80 \%$ and less than or equal to $97 \%$ and which were excluded from the Reference Pool due to failure to satisfy the delinquency-related Eligibility Criteria, payoffs and quality control removals.

## Loan Acquisition Practices

## Underwriting Standards

## Desktop Underwriter

All of the Reference Obligations were acquired from and serviced by loan sellers and servicers who are approved by Fannie Mae to conduct business with Fannie Mae. Fannie Mae relies on loan sellers to comply with Fannie Mae's standards and make underwriting decisions that result in investment quality loans. To protect Fannie Mae from acquiring loans that do not meet Fannie Mae's prescribed underwriting standards, loan sellers are required to make representations and warranties as to certain facts and circumstances concerning the loan sellers themselves and the mortgage loans they are selling. Representations and warranties required by Fannie Mae are described in the Mortgage Selling and Servicing Contract, the Fannie Mae Single-Family Selling Guide (the "Selling Guide"), the Fannie Mae Single-Family Servicing Guide (the "Servicing Guide") and other lender contracts (the "Lender Contract"). Violation of any representation and warranty is a breach of the Lender Contract, entitling Fannie Mae to pursue certain remedies, including a loan repurchase request.

Fannie Mae's Selling Guide establishes the baseline credit standards for mortgage loans that Fannie Mae acquires from Fannie Mae's approved loan sellers. In evaluating a borrower's willingness and ability to repay the mortgage loan, the loan seller must include documentation in the loan file that confirms that information provided by the borrower as part of the loan application is accurate and documents the loan seller's assessment of the borrower's credit history, employment, income, assets, and other financial information. In addition, the loan seller must conduct a comprehensive risk assessment of each mortgage loan application prior to approving it. The loan seller is also responsible for the accuracy and completeness of the appraisal and its assessment of the marketability of the property as well as underwriting the appraisal report to determine whether the property presents adequate collateral for the mortgage loan.

Approximately 90.0\% of the Reference Obligations in Loan Group 1 and $92.0 \%$ of the Reference Obligations in Loan Group 2, by unpaid principal balance, were underwritten through Fannie Mae's Desktop Underwriter ${ }^{\circledR}$ ("DU") system. DU is a proprietary automated underwriting system that evaluates mortgage delinquency risk and arrives at an underwriting recommendation by conducting a comprehensive examination of the primary and contributory risk factors in a mortgage application. DU analyzes the information in the loan case file to reach an overall credit risk assessment to determine eligibility for delivery to Fannie Mae. In addition, DU outlines
certain steps necessary for the loan seller to complete the processing of the loan file, including the required documentation necessary to verify borrower income, assets, and property value. All loans delivered to Fannie Mae must meet the documentation requirements stated in the Selling Guide or as required by DU as of the date of origination.

Servicing Practices

The servicing of the mortgage loans that are held in Fannie Mae's mortgage portfolio or that back Fannie Mae's MBS is performed by servicers on Fannie Mae's behalf, with Fannie Mae retaining servicing control. Each servicer is required to service the applicable Reference Obligations in accordance with Fannie Mae's servicing guidelines as stated in Fannie Mae's Servicing Guide and related announcements, including applicable contract variances. Fannie Mae's servicing guidelines may be revised from time to time at Fannie Mae's sole discretion.

## Fannie Mae's QC Process

## General

Fannie Mae conducts several different types of QC reviews on a sample basis with respect to mortgage loans, including postpurchase reviews, early payment default reviews, servicing reviews, and post-foreclosure reviews. Fannie Mae reviews a statistically valid random sample of newly acquired performing mortgage loans, and augments this random sample with targeted, discretionary sampling employing a number of technology tools and internal models to more accurately identify loans with characteristics that merit further scrutiny in discretionary reviews.

During the course of its post-purchase QC reviews, Fannie Mae may identify the following:

- significant eligibility violations;
- breaches of selling representations or warranties, including instances of fraud or misrepresentation or that a selling warranty the lender made is untrue;
- breaches of the terms of applicable contract provisions; or
- servicing deficiencies that have had a materially adverse effect on the value of the mortgage loan or the acquired property.

If Fannie Mae identifies any of the foregoing, Fannie Mae may require the immediate repurchase of a mortgage loan. Fannie

Mae refers to defects that give rise to a repurchase obligation as "Eligibility Defects." In certain circumstances, Fannie Mae may provide the loan seller with an alternative to the immediate repurchase of a mortgage loan that does not meet Fannie Mae's requirements.

Under Fannie Mae's lender selling representations and warranties framework, lenders are relieved of certain selling representations and warranties that relate to the underwriting of loans delivered to Fannie Mae, provided that those loans have achieved an acceptable payment history or a successful full-file quality control review by Fannie Mae. Nonetheless, lenders will not be relieved from Fannie Mae's enforcement with respect to certain "life of loan representations and warranties," including, but not limited to, fraud and misrepresentation, validity of title and Fannie Mae Charter violations.

Any limitations on our ability to require the repurchase of a mortgage loan is likely to reduce the rate of lender repurchases following certain breaches and thus may increase the exposure of investors to credit losses.

## Delinquent Mortgage Loans

Our current quality control process requires completion of an automated analysis of all defaulted loans that remain subject to loan seller repurchase obligations at the time of default. The objective is to determine the likelihood that a defect exists that will result in a repurchase by the loan seller. This automated analysis triggers referral to a specialist for a detailed review. The analysis takes into account the nature and circumstances of the borrower default, the timing and prior payment history of the borrower, the current status of the loan and/or property and other data elements that, based on our experience, indicate that the default is correlated with a potential loan seller breach requiring a repurchase.

Our QC policies and procedures generally are subject to revision over time as a result of changes in the economic environment as well as changes in regulatory policies and requirements, including implementation of the "Single Security Initiative", among other factors. Further, we may at any time modify our servicing requirements and other procedures in light of our evolving business needs and to minimize losses to taxpayers and our shareholders among other purposes. These changes may be adopted without regard to investors and in some cases may have a negative impact on Noteholders.

Fannie Mae QC Results

Fannie Mae's post purchase QC process is designed to evaluate the eligibility of the loans Fannie Mae acquires. In connection with Fannie Mae's post purchase QC reviews for September November 2014 Acquisitions, Fannie Mae reviewed 22,413 mortgage loans out of the eligible May through August 2014 production, an approximate $9.91 \%$ sample, of which 19,647 are in the Reference Pool. Of the 22,413 mortgage loans, approximately $4.27 \%$ remain subject to Fannie Mae's postpurchase QC Process as of September 24, 2015.

The following summary is preliminary based on the most current information available as of September 24, 2015. The prospectus will contain additional information about the results of Fannie Mae's post purchase QC reviews.

Pre-Offering Due Diligence Review

In connection with the issuance of the Notes, Fannie Mae engaged a third-party diligence provider ("Diligence Provider") to conduct a preoffering review of a sample of the Reference Obligations. The Diligence Provider selected a statistically valid, random sample of 608 of the mortgage loan files (the "Diligence Sample") for the third party review. The Diligence Sample was selected from a population of 5,411 loans that received full credit and appraisal reviews and a portion of which received compliance reviews as part of Fannie Mae's QC Process. All loans in the sample met the same Eligibility Criteria used to establish the Reference Obligations. Of the subset of 5,441 loans, 3,264 and 2,177 were potentially eligible for inclusion in Loan Group 1 and Loan Group 2, respectively. The Diligence Sample included 536 Reference Obligations that were included in the final selection of the Reference Pool; 315 of these Reference Obligations are included in Loan Group 1 and 221 of these Reference Obligations are included in Loan Group 2.

For a further description of the results of these reviews, see the related sections set forth under "The Reference Obligations" in the prospectus.

## THE NOTES

## Debt Agreement

Class Principal Balance

The Notes will be issued pursuant to a debt agreement.
Group 1

As of any Payment Date and the Group 1 Classes:
(a) the maximum dollar amount of principal to which the Holders of each related Class of Notes are then entitled, with such amount being equal to the initial Class Principal Balance of such Class of Notes, minus
(b) the aggregate amount of principal paid by Fannie Mae on such Class of Notes on such Payment Date and all prior Payment Dates, minus
(c) the aggregate amount of related Tranche Write-down Amounts allocated to reduce the Class Principal Balance of such Class of Notes on such Payment Date and on all prior Payment Dates, and plus
(d) the aggregate amount of Tranche Write-up Amounts allocated to increase the Class Principal Balance of such Class of Notes on such Payment Date and on all prior Payment Dates.

The Class Principal Balance of each Class of Group 1 Notes will at all times equal the Class Notional Amount of the Group 1 Reference Tranche that corresponds to such Class of Notes. For the avoidance of

## Interest Accrual Amount

## Interest Payment Amount

doubt, no Tranche Write-up Amount or Tranche Write-down Amount will be applied twice on the same Payment Date.

## Group 2

As of any Payment Date and the Group 2 Classes:
(a) the maximum dollar amount of principal to which the Holders of each related Class of Notes then are entitled to, with such amount being equal to the initial Class Principal Balance of such Class of Notes, minus
(b) the aggregate amount of principal paid by Fannie Mae on such Class of Notes on such Payment Date and all prior Payment Dates, minus
(c) the aggregate amount of related Tranche Write-down Amounts allocated to reduce the Class Principal Balance of such Group 2 Class of Notes on such Payment Date and on all prior Payment Dates, and plus
the aggregate amount of related Tranche Write-up Amounts allocated to increase the Class Principal Balance of such Class of Notes on such Payment Date and on all prior Payment Dates.

The Class Principal Balance of each Class of Group 2 Notes will at all times equal the Class Notional Amount of the Group 2 Reference Tranche that corresponds to such Class of Notes. For the avoidance of doubt, no Tranche Write-up Amount or Tranche Write-down Amount will be applied twice on the same Payment Date.

With respect to each outstanding Class of Notes and any Payment Date is an amount equal to the accrued interest at the class coupon on the Class Principal Balance of each Class of Notes immediately prior to such Payment Date.

With respect to each outstanding Class of Notes and any Payment Date, the amount that Noteholders thereof will be entitled to receive from the Interest Accrual Amount for such Class of Notes, less any Modification Loss Amount for such Payment Date allocated to reduce such amount for such Class of Notes.

## Principal Payment

## Group 1

Except as described below, on each Payment Date, Fannie Mae will pay principal to Holders of each outstanding Class of Group 1 Notes in an amount equal to the portion of related Senior Reduction Amount or Subordinate Reduction Amount, as applicable, allocated to the corresponding Group 1 Reference Tranche on such Payment Date. No payments of principal will be made to the Group 1 Reference

## Tranches.

On the earlier to occur of (x) the Group 1 Early Redemption Date, if any, and (y) the Maturity Date, Fannie Mae will pay $100 \%$ of the outstanding Class Principal Balance to Holders of each Class of Group 1 Notes, after allocations of the related Tranche Write-Down Amount and the Tranche Write-up Amount for such Payment Date.

In addition, on the Group 1 Recovery Election Date, if any, the Holders of Written-down Group 1 Notes may elect either (x) to receive their proportionate shares of the Group 1 Projected Recovery Amount on the Group 1 Recovery Election Date or (y) to receive their proportionate shares of the Group 1 Liquidation Recovery Amount on the Group 1 Liquidation Date. If a majority of Holders (excluding Fannie Mae) of a Class of Written-down Group 1 Notes elects to receive the Group 1 Projected Recovery Amount, all Holders of such Class will receive such amount. Otherwise, those Holders who so elect to receive the Group 1 Projected Recovery Amount will receive their proportionate shares of such amount on the Group 1 Recovery Election Date and each Holder not electing to receive the Group 1 Projected Recovery Amount (including any Holder who makes no election) will receive its proportionate share of the Group 1 Liquidation Recovery Amount on the Group 1 Liquidation Date.

## Group 2

Except as described below, on each Payment Date, Fannie Mae will pay principal to Holders of each outstanding Class of Group 2 Notes in an amount equal to the portion of related Senior Reduction Amount or Subordinate Reduction Amount, as applicable, allocated to the corresponding Group 2 Reference Tranche on such Payment Date. No payments of principal will be made to the Group 2 Reference Tranches.

On the earlier to occur of (x) the Group 2 Early Redemption Date, if any, and (y) the Maturity Date, Fannie Mae will pay $100 \%$ of the outstanding Class Principal Balance to Holders of each Class of Group 2 Notes, after allocations of the related Tranche Write-Down Amount and the Tranche Write-up Amount for such Payment Date.

In addition, on the Group 2 Recovery Election Date, if any, the Holders of Written-down Group 2 Notes may elect either (x) to receive their proportionate shares of the Group 2 Projected Recovery Amount on the Group 2 Recovery Election Date or (y) to receive their proportionate shares of the Group 2 Liquidation Recovery Amount on the Group 2 Liquidation Date. If a majority of Holders of a Class of Written-down Group 2 Notes elects to receive the Group 2 Projected

Recovery Amount, all Holders (excluding Fannie Mae) of such Class will receive such amount. Otherwise, those Holders who so elect to receive the Group 2 Projected Recovery Amount will receive their proportionate shares of such amount on the Group 2 Recovery Election Date and each Holder not electing to receive the Group 2 Projected Recovery Amount (including any Holder who makes no election) will receive its proportionate share of the Group 2 Liquidation Recovery Amount on the Group 2 Liquidation Date.

## Events of Default

An "Event of Default" for a Group of Notes under the Debt Agreement will consist of:
(a) any failure by Fannie Mae to pay principal or interest on a related Note that continues unremedied for 30 days;
(b) any failure by Fannie Mae to perform in any material respect any other obligation under the Debt Agreement if the failure continues unremedied for 60 days after Fannie Mae receives notification by the Holders of at least $25 \%$ of the outstanding Class Principal Balance of the related Notes; or
(c) specified events of bankruptcy, insolvency or similar proceedings involving Fannie Mae.

The appointment of a conservator (or other similar official) by a regulator having jurisdiction over Fannie Mae, whether or not Fannie Mae consents to such appointment, will not constitute an Event of Default.

## Rights Upon Event of

 DefaultIf an Event of Default under the Debt Agreement continues unremedied, Holders of not less than $50 \%$ of the Class Principal Balance amount of each Class of Notes to which such Event of Default relates may, by written notice to Fannie Mae, declare such Notes due and payable.

No Noteholder has any right under the Debt Agreement to institute any action or proceeding at law or in equity or in bankruptcy or otherwise, or for the appointment of a receiver or trustee, or for any other remedy, unless:
(a) the Noteholder previously has given Fannie Mae written notice of an Event of Default and of the continuance thereof;
(b) the Holders of not less than $50 \%$ of the outstanding Class Principal Balance of each Class of Notes to which such Event of Default relates have given Fannie Mae written notice of the Event of Default; and
(c) the Event of Default continues uncured for 60 days following such notice.

The Holders of not less than $50 \%$ of the outstanding Class Principal Balance of each Class of Notes to which an Event of Default relates may waive, rescind or annul such Event of Default as it relates to such Class at any time.

## EU Risk Retention

Irish Stock Exchange

Registration and Denomination

Fannie Mae expects to receive an opinion from Hunton \& Williams LLP that, although the matter is not free from doubt, each Note sold on the Closing Date to a person unrelated to Fannie Mae will be characterized as indebtedness for U.S. federal income tax purposes. Fannie Mae and each Holder of such a Note, by acceptance of such Note, will agree to treat such Note as indebtedness of Fannie Mae for all U.S. federal income tax purposes unless otherwise required by law.

Employee benefit plans and entities holding the assets of any such plan may purchase the Notes only if purchasing and holding the Notes will not result in a nonexempt prohibited transaction under the Employee Retirement Income Security Act of 1974, as amended ("ERISA") or the Internal Revenue Code of 1986, as amended (the "Code"), or a non-exempt violation of any similar federal, state or local law.

The Notes will not be "mortgage related securities" for purposes of the Secondary Mortgage Market Enhancement Act of 1984, as amended ("SMMEA"). No representation is or will be made as to the proper characterization of the Notes for legal investment or other purposes, the ability of particular investors to purchase Notes for legal investment or other purposes or the ability of particular investors to purchase the Notes under applicable legal investment or other restrictions.

In connection with Article 405(1) of EU Regulation 575/2013, Fannie Mae will retain a material net economic interest in the exposure related to the Notes issuance transaction of not less than $5 \%$.

Fannie Mae expects to list the Notes on the Irish Stock Exchange subsequent to the Closing Date.

The Notes will be issuable in book-entry form through DTC, Euroclear and Clearstream in minimum denominations of $\$ 10,000$ with integral multiples of $\$ 1$ in excess thereof. The Notes are being offered only to "Qualified Institutional Buyers" (as defined in Rule 144A under the Securities Act).

Succeeding months follow the same pattern.

## RECOVERY ELECTION DATES

## Group 1

On the Group 1 Recovery Election Date, if any, the following will occur:

- the Class Principal Balance of each outstanding Class of Group 1 Notes will be paid in full;
- each Holder of a Written-down Group 1 Note may elect either (x) to receive its proportionate share of the Group 1 Projected Recovery Amount on the Group 1 Recovery Election Date or (y) to receive its proportionate share of the Group 1 Liquidation Recovery Amount on the Group 1 Liquidation Date. On the basis of this election:
- if a majority of the Holders of any Class of Written-down Group 1 Notes elects to receive the Group 1 Projected Recovery Amount, then all Holders of the Notes of such Class will receive their proportionate shares of the Group 1 Projected Recovery Amount; and
- if a majority of the Holders of any Class of Written-down Group 1 Notes does not elect to receive the Group 1 Projected Recovery Amount, only the Holders electing to receive the Group 1 Projected Recovery Amount will receive their proportionate shares thereof on the Group 1 Recovery Election Date and all other Holders of that Class of Written-down Group 1 Notes (including any Holder that makes no election) will become entitled to receive their proportionate shares of the Group 1 Liquidation Recovery Amount on the Group 1 Liquidation Date.

## Group 2

On the Group 2 Recovery Election Date, if any, the following will occur:

- the Class Principal Balance of each outstanding Class of Group 2 Notes will be paid in full;
- each Holder of a Written-down Group 2 Note may elect either (x) to receive its proportionate share of the Group 2 Projected Recovery Amount on the Group 2 Recovery Election Date or (y) to receive its proportionate share of the Group 2 Liquidation Recovery Amount on the Group 2 Liquidation Date. On the basis of this election:
- if a majority of the Holders of any Class of Written-down Group 2 Notes elects to receive the Group 2 Projected Recovery Amount, then all Holders of the Notes of such Class will receive their proportionate shares of the Group 2 Projected Recovery Amount; and
- if a majority of the Holders of any Class of Written-down Group 2 Notes does not elect to receive the Group 2 Projected Recovery Amount, only the Holders electing to receive the Group 2 Projected Recovery Amount will receive their proportionate shares thereof on the Group 2 Recovery Election Date and all other

Holders of that Class of Written-down Group 2 Notes (including any Holder that makes no election) will become entitled to receive their proportionate shares of the Group 2 Liquidation Recovery Amount on the Group 2 Liquidation Date.

Fannie Mae Excluded from Recovery Elections
Fannie Mae may from time to time acquire any of the Notes at any price in the open market or otherwise. In the event that any such Note held by Fannie Mae is a Written-down Note as of the related Recovery Election Date, Fannie Mae's election either (x) to receive its proportionate share of the related Projected Recovery Amount on such date or (y) to receive its proportionate share of the related Liquidation Recovery Amount on the related Liquidation Date will be disregarded for purposes of determining whether a majority of Holders of a Class of Writtendown Notes has elected to receive the related Projected Recovery Amount.

Proportionate Shares of Projected Recovery Amount and Liquidation Recovery Amount
References in this term sheet to the Holders' "proportionate shares" of the related Projected Recovery Amount or the related Liquidation Recovery Amount, as applicable, are in each case references to a fraction, the numerator of which is the outstanding principal balance of the applicable Holder's Written-down Notes with respect to a given Class and the denominator of which is the aggregate outstanding principal balance of all Written-down Notes of that Class, in each case immediately prior to the related Recovery Election Date.

## GLOSSARY OF CERTAIN DEFINED TERMS

"Credit Event Amount" means, with respect to each Payment Date and Loan Group, the aggregate amount of the Credit Event UPB of all Credit Event Reference Obligations for the related Reporting Period with respect to that Loan Group.
"Credit Event Net Gain" means, with respect to any Credit Event Reference Obligation, an amount equal to the excess, if any, of:
(a) the related Net Liquidation Proceeds, over
(b) the sum of:
(i) the related Credit Event UPB;
(ii) the total amount of prior principal forgiveness modifications, if any, on the related Credit Event Reference Obligation; and
(iii) delinquent accrued interest thereon, calculated at the applicable Current Accrual Rate from the related last-paid interest date through the date such Reference Obligation has been reported as a Credit Event Reference Obligation.
"Credit Event Net Loss" means, with respect to any Credit Event Reference Obligation, an amount equal to the excess, if any, of:
(a) the sum of:
(i) the related Credit Event UPB;
(ii) the total amount of prior principal forgiveness modifications, if any, on the related Credit Event Reference Obligation; and
(iii) delinquent accrued interest thereon, calculated at the related Current Accrual Rate from the related last paid interest date through the date such Reference Obligation has been reported as a Credit Event Reference Obligation, over
(b) the related Net Liquidation Proceeds.

As indicated below, the Net Liquidation Proceeds for any Credit Event Reference Obligation will be determined based on the proceeds received (net of related expenses and credits) during the period including the month in which such Reference Obligation became a Credit Event Reference Obligation together with the immediately following three-month period. Any proceeds or expenses received or incurred thereafter with respect to such Credit Event Reference Obligation will be determined on a monthly basis for inclusion in the calculation of the Principal Recovery Amount or Principal Loss Amount, as applicable, for the related Loan Group.
"Credit Event Reference Obligation" means, with respect to any Payment Date, any Reference Obligation with respect to which a Credit Event has occurred.
"Credit Event UPB" means, with respect to each Credit Event Reference Obligation, the unpaid principal balance of such Reference Obligation as of the end of the Reporting Period related to the Payment Date that it became a Credit Event Reference Obligation.
"Current Accrual Rate" means, with respect to each Payment Date and any Reference Obligation, the current mortgage rate, less the greater of (i) the related servicing free rate and (ii) 35 basis points.
"Delinquency Test" means, for any Payment Date and Loan Group, a test that will be satisfied if:
(a) the sum of the Distressed Principal Balance for such Loan Group for the current Payment Date and each of the preceding five Payment Dates, divided by six, is less than
(b) $40 \%$ of the excess of (i) the product of (x) the Subordinate Percentage and (y) the aggregate unpaid principal balance of the Reference Obligations in such Loan Group as of the preceding Payment Date over (ii) the Principal Loss Amount for such Loan Group for the current Payment Date.
"Distressed Principal Balance" means, for any Payment Date and Loan Group, the aggregate unpaid principal balance of the Reference Obligations in that Loan Group that are 90 days or more delinquent or are otherwise in foreclosure, bankruptcy or REO status.
"Group 1 Liquidation Date" means the 25th day (or next succeeding business day) of the month that immediately follows the end of the Group 1 Liquidation Period. The latest possible Group 1 Liquidation Date is November 25, 2030.
"Group 1 Liquidation Period" means the 30-month period immediately following the Group 1 Recovery Election Date.
"Group 1 Liquidation Recovery Amount" means the Liquidation Recovery Amount, if any, for the Group 1 Notes.
"Group 1 Projected Recovery Amount" means the Projected Recovery Amount, if any, for the Group 1 Notes.
"Group 1 Recovery Election Date" means the Group 1 Termination Date, if Written-down Group 1 Notes exist on such date.
"Group 1 Senior Percentage" means, with respect to each Payment Date and Group 1, the percentage equivalent of a fraction, the numerator of which is the Class Notional Amount of the Group 1 Senior Reference Tranche immediately prior to such Payment Date and the denominator of which is the aggregate unpaid principal balance of the Reference Obligations in Loan Group 1 at the end of the previous Reporting Period.
"Group 1 Subordinate Percentage" means, with respect to each Payment Date and the Group 1 Notes, 100\% minus the Group 1 Senior Percentage for such Payment Date.

## This is a Confidential Preliminary Term Sheet. All Terms and statements are subject to change.

"Group 2 Liquidation Date" means the 25th day (or next succeeding business day) of the month that immediately follows the end of the Group 2 Liquidation Period. The latest possible Group 2 Liquidation Date is November 25, 2030.
"Group 2 Liquidation Period" means the 30-month period immediately following the Group 2 Recovery Election Date.
"Group 2 Liquidation Recovery Amount" means the Liquidation Recovery Amount, if any, for the Group 2 Notes.
"Group 2 Projected Recovery Amount" means the Projected Recovery Amount, if any, for the Group 2 Notes.
"Group 2 Recovery Election Date" means the Group 2 Termination Date, if Written-down Group 2 Notes exist on such date.
"Group 2 Senior Percentage" means, with respect to each Payment Date and Group 2, the percentage equivalent of a fraction, the numerator of which is the Class Notional Amount of the Group 2 Senior Reference Tranche immediately prior to such Payment Date and the denominator of which is the aggregate unpaid principal balance of the Reference Obligations in Loan Group 2 at the end of the previous Reporting Period.
"Group 2 Subordinate Percentage" means, with respect to each Payment Date and the Group 2 Notes, $100 \%$ minus the Group 2 Senior Percentage for such Payment Date.
"Group of Notes" or "Group" means the Group 1 Notes or the Group 2 Notes, as applicable.
"Liquidation Date" means the Group 1 Liquidation Date or the Group 2 Liquidation Date, as applicable.
"Liquidation Period" means the Group 1 Liquidation Period or the Group 2 Liquidation Period, as applicable.
"Liquidation Recovery Amount" means, with respect to a Group of Notes and the related Liquidation Date, the sum of:
(a) the aggregate subsequent recoveries, net of expenses and credits, actually received on the related Liquidation Recovery Mortgage Loans during the related Liquidation Period; plus
(b) the maximum contractual amount of future recoveries Fannie Mae has determined to pursue on the related Liquidation Recovery Mortgage Loans as of such date;
provided, that the "Liquidation Recovery Amount" will in no event be greater than the excess, as of the related Recovery Election Date, of (i) the Tranche Write-down Amounts, in the aggregate, allocated to the Notes of the related Holders, over (ii) any related Tranche Write-up Amounts, in the aggregate, allocated to such Notes.
"Liquidation Recovery Mortgage Loan" means a mortgage loan that is a former Reference Obligation that became a Credit Event Reference Obligation prior to the related Recovery Election Date, if any, and that was subject to a disposition prior to that Recovery Election Date.
"Minimum Credit Enhancement Test" means, with respect to any Payment Date and Loan Group, a test that will be satisfied if:
(a) in the case of Loan Group 1, the Group 1 Subordinate Percentage (solely for purposes of such test, rounded to the sixth decimal place) is greater than or equal to $4.750000 \%$, and
(b) in the case of Loan Group 2, the Group 2 Subordinate Percentage (solely for purposes of such test, rounded to the sixth decimal place) is greater than or equal to $4.750000 \%$.
"Mortgage Insurance Credit Amount" means, with respect to any Credit Event Reference Obligation, the amount, if any, that may be claimed as contractual proceeds of any mortgage insurance covering such Reference Obligation.
"Net Liquidation Proceeds" means, with respect to any Credit Event Reference Obligation, the sum of the related liquidation proceeds, any Mortgage Insurance Credit Amount, and any proceeds received from the related servicer in connection with such Credit Event Reference Obligation, less related expenses and credits, including but not limited to taxes and insurance, legal costs, maintenance and preservation costs, in each case during the period including the month in which such Reference Obligation became a Credit Event Reference Obligation together with the immediately following three-month period.
"Original Accrual Rate" means, with respect to any Reference Obligation, the mortgage rate as of the Cut-off Date, less the greater of (i) the related servicing fee and (ii) 35 basis points.
"Preliminary Class Notional Amount" means, for a Payment Date and Reference Tranche, an amount equal to the Class Notional Amount of a Reference Tranche immediately prior to such Payment Date after the application of the Preliminary Tranche Write-down Amount for the related Loan Group in accordance with the priorities set forth in the Allocation of Tranche Write-down Amount for the related Group of Notes and after the application of the Preliminary Tranche Write-up Amount for such Loan Group in accordance with the priorities set forth in the Allocation of Tranche Write-up Amount for the related Group.
"Preliminary Principal Loss Amount" means, for a Payment Date and Loan Group, an amount equal to the Principal Loss Amount for such Loan Group computed without giving effect to clause (d) of the definition of Principal Loss Amount.
"Preliminary Tranche Write-down Amount" means, for a Payment Date and Loan Group, and amount equal to the Tranche Write-down Amount for such Loan Group computed using the Preliminary Principal Loss Amount instead of the Principal Loss Amount.
"Preliminary Tranche Write-up Amount" means, for a Payment Date and Loan Group, an amount equal to the Tranche Write-up Amount for such Loan Group computed using the Preliminary Principal Loss Amount instead of the Principal Loss Amount.
"Projected Recovery Amount" means, for either Group of Notes and the related Recovery Election Date, if any, the aggregate amount of subsequent net recoveries projected to be received on the related Loan Group, calculated based on a formula to be derived by Fannie Mae from the actual net recovery experience for that Loan Group during a specified period of time preceding such Recovery Election Date, plus any additional amount determined by Fannie Mae in its sole discretion to be appropriate for purposes of the projection in light of the then-current market conditions.

The prospectus will contain further information regarding the Projected Recovery Amount. Certain specific information regarding the Projected Recovery Amount will be made available by Fannie Mae in the months immediately preceding the related Recovery Election Date.
"Recovery Election Date" means the Group 1 Recovery Election Date or the Group 2 Recovery Election Date, as applicable.
"Recovery Principal" means, with respect to each Payment Date and Loan Group, the sum of:
(a) the excess, if any of the related Credit Event Amount for such Payment Date over the related Tranche Write-down Amount for such Payment Date; plus
(b) the related Tranche Write-up Amount for such Payment Date.
"Written-down Group 1 Note" means a Group 1 Note or any Class with respect to which any related Tranche Write-down Amounts, in the aggregate, exceed any related Tranche Writeup Amounts, in the aggregate, in each case as of the Group 1 Recovery Election Date.
"Written-down Group 2 Note" means a Group 2 Note of any Class with respect to which any related Tranche Write-down Amounts, in the aggregate, exceed any related Tranche Writeup Amounts, in the aggregate, in each case as of the Group 2 Recovery Election Date.
"Written-down Note" means a Written-down Group 1 Note or a Written-down Group 2 Note, as applicable.

## Weighted Average Life and Modeling Assumptions

Weighted average life of a Class of Notes refers to the average amount of time that will elapse from the date of issuance of such Class of Notes until each dollar is distributed and any Tranche Write-down Amount is allocated in reduction of its principal balance. The weighted average lives of the Notes will be influenced by, among other things, the rate at which principal of the mortgage loans that are Reference Obligations in the related Loan Group is paid, which may be in the form of scheduled amortization, prepayments or liquidations and the timing and rate of allocation of Tranche Write-down Amounts and Tranche Write-Up Amounts.

Prepayments on mortgage loans are commonly measured relative to a constant prepayment standard or model. The model used in this preliminary term sheet for the Reference Obligations in each Loan Group is a Constant Prepayment Rate (or "CPR"). CPR assumes that the outstanding principal balance of a pool of mortgage loans prepays at a specified constant annual rate. In projecting monthly cashflows, this rate is converted to an equivalent monthly rate. CPR does not purport to be either a historical description of the prepayment experience of mortgage loans or a prediction of the anticipated rate of prepayment of any mortgage loans, including the Reference Obligations. The percentages of CPR in the tables below do not purport to be historical description of relative prepayment experience of the Reference Obligations in either Loan Group or predictions of the anticipated relative rate of prepayment of the Reference Obligations in such Loan Group. Variations in the prepayment experience and the principal balance of the Reference Obligations in a Loan Group that prepay may increase or decrease the percentages of initial Class Principal Balance (and weighted average lives) shown in the following table. Such variations may occur even if the average prepayment experience of all such Reference Obligations in a Loan Group equals any of the specified percentages of CPR.

The Weighted Average Life Tables, Declining Balances Tables, Credit Event Sensitivity Tables, Cumulative Note Write-down Amount Tables and Yield Tables below were prepared based on the following assumptions (collectively, the "Modeling Assumptions"):
(1) the initial Class Principal Balances or Notional Amounts are as set forth in the table on page 4;
(2) the scheduled monthly payment for each Reference Obligation is based on its outstanding principal balance, current mortgage rate and remaining amortization term to maturity so that it will fully amortize in amounts sufficient for the repayment thereof over its remaining amortization term to maturity; each monthly payment of scheduled principal and interest on the Reference Obligations is timely received on the first day of each month commencing in November 2015;
(4) other than with respect to the Declining Balances Tables, the Reference Obligations in each Loan Group experience Credit Events at the indicated CDR percentages and there is no lag between the related Credit Event Amounts and the application of any related Recovery Principal; the Principal Loss Amount is equal to $25 \%$ of the Credit Event Amount with respect to Loan Group 1 and $15 \%$ of the Credit Event Amount with respect to Loan Group 2; in the case of the Declining Balances Tables, it is assumed that no Credit Events occur;
5) the Delinquency Test is satisfied for each Payment Date and Loan Group;
(6) principal prepayments in full on the Reference Obligations are received on the last day of each month beginning in the calendar month prior to the month in which the first Payment Date occurs;
(7) there are no partial principal prepayments on the Reference Obligations;
(8) the Reference Obligations in each Loan Group prepay at the indicated CPR percentages;
(9) except as specified in the tables, there are no defaults or delinquencies on the Reference Obligations;
(10) Payment Dates occur on the 25th day of each month commencing in November 2015;
(11) there are no purchases, removals, reinstatements, or substitutions of Reference Obligations;
(12) there are no Modification Events or data corrections in connection with the Reference Obligations;
(13) the Maturity Date is the Payment Date in April 2028;
(14) there is no Early Redemption Option exercised (except in the case of Weighted Average Life in Years (to Early Redemption Option));
(15) the Closing Date is October 27, 2015;
(16) one-month LIBOR stays constant at $0.194 \%$;
(17) the Reference Obligations in each Loan Group are aggregated into the assumed mortgage loans having the characteristics as described in "Assumed Characteristics of Loan Group 1 as of the Cut-Off Date" and "Assumed Characteristics of Loan Group 2 as of the Cut-Off Date", as applicable;
(18) there are no Reversed Credit Event Reference Obligations;
(19) the Projected Recovery Amount for each Loan Group is zero;
(20) there are no Originator Rep and Warranty Settlements; and
(21) the Class $1 \mathrm{M}-1$ margin is equal to $1.40 \%$, the Class $1 \mathrm{M}-2$ margin is equal to $5.00 \%$, the Class $2 \mathrm{M}-1$ margin is equal to $1.40 \%$ and the Class $2 \mathrm{M}-2$ margin is equal to $5.00 \%$.

The Default Sensitivity tables assume a constant rate of Reference Obligations in each Loan Group becoming Credit Event Reference Obligations each month relative to the then outstanding aggregate principal balance of Reference Obligations in such Loan Group. This credit event rate (or "CDR") does not purport to be either an historical description of the default experience of the Reference Obligations or a prediction of the anticipated rate of defaults on the Reference Obligations. The rate and extent of actual defaults experienced on the Reference Obligations are likely to differ from those assumed and may differ significantly. A rate of $1.0 \%$ CDR assumes Reference Obligations become Credit Event Reference Obligations at an annual rate of 1.0\% which remains in effect through the remaining lives of such Reference Obligations. Further, it is unlikely the Reference Obligations will become Credit Event Reference Obligations at any specified percentage of CDR.
