

Single-Family MBS Disclosures Guide

A resource for disclosure
publication timing, definitions,
calculations and file formats

February 2025 (Version 1.31)

Introduction

This guide provides definitions and calculations for the data elements disclosed on Fannie Mae's Single-Family Mortgage-Backed Securities which are published in our issuance and monthly disclosure files, as well as displayed on our [PoolTalk®](#) web-based application. This document also provides the disclosure file naming convention, publication timing, and file formats.

Fannie Mae Single-Family Disclosure Guide
Loan Level Data
February 2025

ID	Attribute Name	Attribute Definition	Enumerations	Data Type	Format	Max Length	Notes	Calculations
L-001	Loan Identifier	The unique designation assigned to the loan by the issuer.		String		12		
L-002	Loan Correction Indicator	The indicator denoting whether any attributes for the loan have changed from previous disclosures.	Y = Yes N = No A = Added D = Deleted	String		1		
L-003	Prefix	The designation assigned by the issuer denoting the type of the loans and the security.		String		3		
L-004	Security Identifier	The unique designation assigned to the security by the issuer.		String		6		
L-005	CUSIP	The unique designation assigned to the security by the Committee on Uniform Securities Identification Procedures (CUSIP).		String		9		
L-006	Mortgage Loan Amount	The dollar amount of the loan as stated on the note at the time the loan was originated or modified. For reperforming, modified fixed-rate and modified step-rate loans, this value represents both the interest bearing and non-interest bearing amount.		Numeric	9.2	12	Privacy Masking: Amount rounded to nearest thousand if > \$500.	
L-007	Issuance Investor Loan UPB	The unpaid principal balance of the loan as it contributes to the balance of the security at the time the security was issued.		Numeric	9.2	12	Privacy Masking: If loan age ≤ 6 months, UPB rounded to nearest thousand if > \$500.	
L-008	Current Investor Loan UPB	The unpaid principal balance of the loan as it contributes to the current balance of the security. The Current Investor loan UPB is derived from the mortgage balance as reported by the servicer. The Current Investor UPB reflects any scheduled and unscheduled principal reductions applied to the mortgage.		Numeric	9.2	12	•Privacy Masking: If loan age ≤ 6 months, UPB rounded to nearest thousand if > \$500. •File will include the loan when the balance equals zero for one month.	
L-009	Amortization Type	The classification of the loan as having either a fixed- or an adjustable-interest rate at the time the loan was originated or modified.	FRM = Fixed-Rate ARM = Adjustable-Rate	String		3		
L-010	Original Interest Rate	The interest rate of the loan as stated on the note at the time the loan was originated or modified.		Numeric	2.3	6		
L-011	Issuance Interest Rate	The interest rate of the loan in effect at the time the security was issued.		Numeric	2.3	6		
L-012	Current Interest Rate	The interest rate of the loan in effect during the current reporting period.		Numeric	2.3	6		
L-013	Issuance Net Interest Rate	The interest rate of the loan at the time the security was issued less servicing fees and guarantor fees.		Numeric	2.3	6		
L-014	Current Net Interest Rate	The interest rate of the loan in effect during the current reporting period less servicing fees and guarantor fees.		Numeric	2.3	6		
L-015	First Payment Date	The month and year that the first scheduled payment on the loan is due at the time the loan was originated or modified.		Date	MMCCYY	6		
L-016	Maturity Date	The month and year that the final scheduled payment on the loan is due at the time the loan was originated or modified.		Date	MMCCYY	6		
L-017	Loan Term	For fixed-rate, adjustable-rate and Interest-only mortgages, the number of months in which regularly scheduled borrower payments are due at the time the loan was originated or modified.		Numeric		3		

Fannie Mae Single-Family Disclosure Guide
Loan Level Data
February 2025

ID	Attribute Name	Attribute Definition	Enumerations	Data Type	Format	Max Length	Notes	Calculations
L-018	Remaining Months to Maturity	The number of remaining months that will reduce the Current Investor Loan UPB to zero. For fixed-rate loans, this value takes into account the impact of any curtailments.		Numeric		3		<ul style="list-style-type: none"> For fixed-rate mortgages and interest-only mortgages that are amortizing: <p>Calculation 1: $-(\text{FUNCTION LOG10}(1 - (\text{Issuance Investor Loan UPB} * ((\text{Issuance Interest Rate} / 1200) / \text{Loan Principal and Interest}))) / \text{FUNCTION LOG10}(1 + (\text{Issuance Interest Rate} / 1200)))$</p> <p>Calculation 2: Difference between the Current Factor Date and the Loan Maturity Date.</p> <p>Round up to the nearest integer and use the lower value of the two calculations</p> <ul style="list-style-type: none"> For adjustable-rate mortgages and interest-only mortgages in their interest-only period, use the following calculation: Difference between the Current Factor Date and the Loan Maturity Date.
L-019	Loan Age	The number of scheduled payments from the time the loan was originated or modified, up to and including the current reporting period.		Numeric		3		$(\text{Security Factor Date (MM/YY)} - \text{First Payment Date (MM/YY)}) + 1$
L-020	Loan-to-Value (LTV)	The ratio, expressed as a percentage, obtained by dividing the amount of the loan at origination by the value of the property. Value of the property reflects either the lesser of the sales price or the property value for a purchase or the property value for a refinance. For modified fixed-rate, modified step-rate loans, and reinstated loans, this value will be blank.		Numeric		3	<ul style="list-style-type: none"> If LTV ratios is < 1% or > 998%, it will be disclosed as "Not Available", indicated by 999. If any of the following criteria is met, the LTV ratio will be disclosed as "Not Available", indicated by 999. <ul style="list-style-type: none"> - The LTV ratio is < 1% or > 998% - The CLTV ratio is < the LTV ratio - The LTV ratio is "Not Available" 	<p>Purchase: $\text{LTV} = \text{Mortgage Loan Amount} / (\text{Min}(\text{Sales Price, Property Value})) * 100$</p> <p>Refinance: $\text{LTV} = \text{Mortgage Loan Amount} / \text{Property Value} * 100$</p> <ul style="list-style-type: none"> Truncate (shortened) to two decimal places, then rounded up to the nearest whole percent.
L-021	Combined Loan-to-Value (CLTV)	The ratio, expressed as a percentage, obtained by dividing the amount of all known outstanding loans at origination by the value of the property. Value of the property reflects either the lesser of the sales price or the property value for a purchase or the property value for a refinance. For modified fixed-rate, modified step-rate loans, and reinstated loans, this value will be blank.		Numeric		3	<ul style="list-style-type: none"> If CLTV ratios is < 1% or > 998%, it will be disclosed as "Not Available", indicated by 999. The CLTV ratio will be disclosed as "Not Available", indicated by 999: <ul style="list-style-type: none"> - The CLTV ratio is < 1% or > 998% - The CLTV ratio is < the LTV ratio - The CLTV ratio is "Not Available" 	$\text{Sum of All Outstanding Loan Amounts} / (\text{Min}(\text{Sales Price, Property Value})) * 100$ <ul style="list-style-type: none"> Loan Amounts may include: <ul style="list-style-type: none"> - Original loan amount of the first mortgage, - Drawn portion (outstanding principal balance) of a HELOC, and - Unpaid principal balance of all closed-end subordinate financing

Loan Level Data
February 2025

ID	Attribute Name	Attribute Definition	Enumerations	Data Type	Format	Max Length	Notes	Calculations
L-022	Debt-to-Income (DTI)	The ratio obtained by dividing the total monthly debt expense by the total monthly income of the borrower at the time the loan was originated or modified.		Numeric		3	If value is < 1 or > 65, it will be disclosed as "Not Available", indicated by 999.	(Borrower Total Monthly Liabilities Amount / Borrower Total Monthly Income Amount) * 100 • Round to nearest integer
L-023	Borrower Credit Score	The standardized credit score used to evaluate borrowers during the loan origination process. The standardized or representative credit score of an individual borrower is either i) the lower of two scores if a score is received from two Credit Score Repositories for the borrower, or ii) the middle of three scores if a score is received from three Credit Score Repositories for the borrower. This evaluation is done for each borrower on the loan. • The lowest representative credit score of all borrowers will be disclosed • For all newly delivered loans, Fannie Mae uses the "Classic" FICO score developed by Fair Isaac Corporation with the range of 300 - 850.		Numeric		4	• If the credit score is < 300 or > 850, the Borrower Credit Score will be disclosed as "Not Available", which will be indicated by 9999. • For modified fixed-rate, modified step-rate loans and reinstated loans, this value will be blank.	
L-024	Filler							
L-025	Filler							
L-026	Filler							
L-027	Number of Borrowers	The number of borrowers who, at the time the loan was originated, are obligated to repay the loan.	1 = 1 2 = 2 3 = 3 4 = 4 5 = 5 6 = 6 7 = 7 8 = 8 9 = 9 10 = 10 99 = Not Available	Numeric		2		
L-028	First-Time Homebuyer Indicator	The indicator denoting whether a borrower on the loan qualifies as a first-time homebuyer. An individual is to be considered a first-time homebuyer who (1) is purchasing the property; (2) will reside in the property; and (3) had no ownership interest (sole or joint) in a residential property during the three-year period preceding the date of the purchase of the property. In addition, an individual who is a displaced homemaker or single parent also will be considered a first-time homebuyer if he or she had no ownership interest in a principal residence (other than a joint ownership interest with a spouse) during the preceding three-year time period.	Y = Yes N = No 9 = Not Available	String		1		
L-029	Loan Purpose	The classification describing the purpose of the loan.	C = Refinance - Cash Out N = Refinance - No Cash Out R = Refinance - Not Specified P = Purchase M = Modified - Loss Mitigation 9 = Not Available	String		1		
L-030	Occupancy Status	The classification describing the property occupancy status at the time the loan was originated. For reperforming, modified fixed-rate and modified step-rate loans, this value will be blank.	P = Primary Residence S = Second Home I = Investment Property 9 = Not Available	String		1

Loan Level Data
February 2025

ID	Attribute Name	Attribute Definition	Enumerations	Data Type	Format	Max Length	Notes	Calculations
L-031	Number of Units	The number of dwelling units in the mortgaged property at the time the loan was originated.	1 = 1 2 = 2 3 = 3 4 = 4 99 = Not Available	Numeric		2		
L-032	Property Type	The classification describing the type of property that secures the loan.	CP = Cooperative CO = Condominium PU = Planned Unit Development SF = Single-Family MH = Manufactured Housing 99 = Not Available	String		2		
L-033	Channel	<p>The origination channel used by the party that delivered the loan to the issuer.</p> <p>For reperforming, modified fixed-rate and modified step-rate loans, this value will be blank.</p> <ul style="list-style-type: none"> • Broker: A loan that is originated under circumstances where a person or firm other than a mortgage loan seller (or its parent company, controlled affiliate, or subsidiary) or lender correspondent is acting as a "broker" and receives a commission for bringing together a borrower and a lender. The broker performs some of the loan processing functions (such as taking loan applications; ordering credit reports and title reports; requesting, appraisals; and verifying a borrower's income and employment), but does not underwrite the loan, fund the loan at settlement, or service the loan. Typically, the loan is closed in the name of the mortgage loan seller or lender correspondent that commissioned the broker's services, but may also include so-called "table-funded" loans where the loan is closed in the broker's name, but is funded by the mortgage loan seller or the lender correspondent. • Correspondent: A loan that is originated by a party other than a mortgage loan seller (or its parent company, controlled affiliate, or subsidiary) and is then sold to a mortgage loan seller. A lender correspondent performs the loan processing functions (such as taking loan applications; ordering credit reports and title reports; requesting appraisals; and verifying a borrower's income and employment) without the assistance of a broker. The lender correspondent typically underwrites the loan, but correspondent loans may also include loans where the correspondent has not received delegated underwriting authority from a mortgage loan seller and, accordingly, did not underwrite the loan. The lender correspondent funds the loan at settlement, and the loan is closed in the name of the lender correspondent, which may or may not service the loan. • Retail: A loan for which the mortgage loan seller (or, as described in "Retail Origination" below, its parent company, controlled affiliate, or subsidiary) takes the loan application and then processes, underwrites, funds, and sells the loan to Fannie Mae. "Retail Origination" includes a loan that is originated and funded by a parent company, controlled affiliate, or subsidiary of the mortgage loan seller, or closed either in the name of the applicable parent company, controlled affiliate, or subsidiary and sold to the mortgage loan seller or closed in the name of the mortgage loan seller. In any case, the loan is then sold by the mortgage loan seller to Fannie Mae. <p>For loans acquired prior to March 2013, the term "retail" may also, from time to time, include certain loans originated pursuant to a contractual arrangement, specifically approved by Fannie Mae, between a third party and the mortgage loan seller by which the third party may perform one or more of the functions (but not all) related to the origination of the loan, including taking the loan application, processing, underwriting, funding or delivering the loan to Fannie Mae.</p>	R = Retail B = Broker C = Correspondent T = Third Party Origination - Not Specified 9 = Not Available	String		1		
L-034	Property State	The abbreviation denoting the location of the property securing the loan.		String		2	See Appendix B	
L-035	Seller Name	The name of the entity that sold the loan to the issuer.		String		100	A pool with multiple sellers will display "Multiple"	
L-036	Servicer Name	The name of the entity that services the loan during the current reporting period.		String		100

L-065	Modification Program	<p>For reperforming, modified fixed-rate and modified step-rate loans, the program under which the loan was modified.</p> <ul style="list-style-type: none"> • Standard Modification: Standard modifications contain features previously included in the Fannie Mae Home Affordable Modification Program (HAMP), Fannie Mae Regular Modification and Fannie Mae Streamlined Modification programs. This program started October 1, 2017 (with early adoption permitted). Legacy disclosures previously disclosed as Flex. • Regular Modification: Regular modifications allowed for a variety of modification types including capitalization of interest and non-interest arrearages, extension of the mortgage term, change in interest rate, and forbearance, but no reduction of principal. Program expired October 1, 2017. • Streamlined Modification: Streamlined modifications include several programs that generally allow capitalization of interest and non-interest arrearages, extension of the mortgage term, change in interest rate, and forbearance. These programs, existed from July 2013 – October 2017 (with earlier adoption permitted) and include Fannie Mae Standard Modifications and Fannie Mae Streamlined Modifications as referenced in Fannie Mae's Servicing Guide. • Home Affordable Modification Program: HAMP modifications include capitalization of interest and non-interest arrearages, extension of the mortgage term, reduction of interest rates (to a floor of 2%), and in some instances forbearance, but no reduction of principal. The HAMP program applies to mortgage loans originated on or before January 1, 2009 and expired on December 31, 2016. • Other: This category currently comprises of modifications outside of Fannie Mae sponsored programs. Currently, only Bankruptcy Cramdowns are identified in this category. A bankruptcy cramdown is a modification to any terms of the security deed, mortgage or note by a bankruptcy court order. 	<p>H = HAMP O = Other R = Regular S = Standard T = Streamlined 9 = Not Available</p>	String		1

L-101	Origination Loan Purpose	For reperforming, modified fixed-rate and modified step-rate loans, the classification of the loan as either a purchase money mortgage or a refinance mortgage at the time the loan was originated.	C = Refinance - Cash Out N = Refinance - No Cash Out R = Refinance - Not Specified P = Purchase M = Modified - Loss Mitigation 9 = Not Available	String		1		
L-102	Origination Occupancy Status	For reperforming, modified fixed-rate and modified step-rate loans, the classification describing the property occupancy status at the time the loan was originated.	P = Primary Residence S = Second Home I = Investment Property 9 = Not Available	String		1		
L-103	Origination Channel	<p>For reperforming, modified fixed-rate and modified step-rate loans, the origination channel used by the party that delivered the loan to the issuer.</p> <ul style="list-style-type: none"> • Broker: A loan that is originated under circumstances where a person or firm other than a mortgage loan seller (or its parent company, controlled affiliate, or subsidiary) or lender correspondent is acting as a "broker" and receives a commission for bringing together a borrower and a lender. The broker performs some of the loan processing functions (such as taking loan applications; ordering credit reports and title reports; requesting, appraisals; and verifying a borrower's income and employment), but does not underwrite the loan, fund the loan at settlement, or service the loan. Typically, the loan is closed in the name of the mortgage loan seller or lender correspondent that commissioned the broker's services, but may also include so-called "table-funded" loans where the loan is closed in the broker's name, but is funded by the mortgage loan seller or the lender correspondent. • Correspondent: A loan that is originated by a party other than a mortgage loan seller (or its parent company, controlled affiliate, or subsidiary) and is then sold to a mortgage loan seller. A lender correspondent performs the loan processing functions (such as taking loan applications; ordering credit reports and title reports; requesting appraisals; and verifying a borrower's income and employment) without the assistance of a broker. The lender correspondent typically underwrites the loan, but correspondent loans may also include loans where the correspondent has not received delegated underwriting authority from a mortgage loan seller and, accordingly, did not underwrite the loan. The lender correspondent funds the loan at settlement, and the loan is closed in the name of the lender correspondent, which may or may not service the loan. • Retail: A loan for which the mortgage loan seller (or, as described in "Retail Origination" below, its parent company, controlled affiliate, or subsidiary) takes the loan application and then processes, underwrites, funds, and sells the loan to Fannie Mae. "Retail Origination" includes a loan that is originated and funded by a parent company, controlled affiliate, or subsidiary of the mortgage loan seller, or closed either in the name of the applicable parent company, controlled affiliate, or subsidiary and sold to the mortgage loan seller or closed in the name of the mortgage loan seller. In any case, the loan is then sold by the mortgage loan seller to Fannie Mae. <p>For loans acquired prior to March 2013, the term "retail" may also, from time to time, include certain loans originated pursuant to a contractual arrangement, specifically approved by Fannie Mae, between a third party and the mortgage loan seller by which the third party may perform one or more of the functions (but not all) related to the origination of the loan, including taking the loan application, processing, underwriting, funding or delivering the loan to Fannie Mae.</p>	R = Retail B = Broker C = Correspondent T = Third Party Origination - Not Specified 9 = Not Available	String		1

L-107	Property Valuation Method	<p>The method by which the value of the subject property was obtained.</p> <ul style="list-style-type: none"> • Appraisal: The property value obtained through an appraisal that was completed by a licensed or certified appraiser. • Appraisal Waiver plus Property Data Collection - Condition: The appraisal is waived with the requirement that certain property data is collected onsite by a licensed or certified appraiser or trained data collector to ensure the condition of the property meets the GSE's requirements but is not used to validate the value of the property. • Appraisal Waiver plus Property Data Collection – Value: The appraisal is waived with the requirement that certain property data is collected onsite by a licensed or certified appraiser or trained data collector and used in a proprietary automated valuation model (AVM) to validate the value of the property. • GSE Targeted Refinance Programs: The programs implemented by the GSEs for targeted refinance products. • Appraisal Waiver: An appraisal is not required per applicable Selling Guide or negotiated terms. • Other: Any property valuation method not provided for within the other enumerations. • Not Applicable: Property valuation method not applicable to the related loan product. • Not Available: Property valuation method not available for disclosure. 	<p>A = Appraisal C = Appraisal Waiver plus Property Data Collection – Condition P = Appraisal Waiver plus Property Data Collection – Value R = GSE Targeted Refinance Program W = Appraisal Waiver O= Other 7 = Not Applicable 9 = Not Available</p>	String		1	<ul style="list-style-type: none"> • Appraisal: Includes appraisal types where a licensed or certified appraiser is part of the process. This includes Traditional, Desktop and Hybrid appraisal types. For one-unit properties (excluding Manufactured Housing), the lender receives relief from representations and warranties of property valuation if the Collateral Underwriter risk score is 2.5 or less but must provide representations and warranties on property characteristics and condition. For all other properties, the lender must provide representations and warranties on property valuation, characteristics, and condition. • Appraisal Waiver plus Property Data Collection – Condition: Fannie Mae's Value Acceptance + Property Data (VA + PD) program, in which an appraisal waiver is provided utilizing Fannie Mae's AVM but is contingent on property data being collected by a trained and vetted third party (real estate agent, insurance inspector, appraiser, etc.). The lender reviews the data and warrants the property eligibility; however, the data is not used to evaluate the validity of the lender-provided property value. For VA + PD, the lender receives relief from representations and warranties on property valuation but must provide representations and warranties on property characteristics and condition. • Appraisal Waiver plus Property Data Collection – Value: A Fannie Mae program utilizing an AVM, that uses the property data collected onsite and evaluates the validity (within tolerances) of the lender-provided property value that is generally used in the LTV calculation. For purchase transactions, the Sales Price is the value generally provided by the lender. The lender receives relief from representations and warranties on property valuation but must provide representations and warranties on property characteristics and condition. • GSE Targeted Refinance Programs: Loans in these programs may have received an appraisal, an appraisal waiver, or utilized an AVM to determine the property value. Includes Fannie Mae HARP, Refi Plus or High LTV Refinance loans, and, in the case of commingled Supers, can contain Freddie Mac's Relief Refinance and Enhanced Relief Refinance program loans. RefiNow or Freddie Mac Refi Possible are not included in the program. • Appraisal Waiver (Value Acceptance): Fannie Mae uses data and technology to accept the lender-provided value, allowing lenders to deliver loans for certain eligible transactions to Fannie Mae without an appraisal. The accepted lender provided property value is generally used in the LTV calculation. For purchase transactions, the Sales Price is the value generally provided by the lender. A commingled Supers may contain loans with appraisal waivers granted under Fannie Mae's program and/or under Freddie Mac's program. The lender receives relief from representations and warranties on property valuation, characteristics, and condition. • Other: May include methods such as broker price opinion or tax valuation. • Not Applicable: For Modified Reperforming loans in fixed-rate and step-rate pools, the value will default to Not Applicable. • Not Available: For loans backing pools issued prior to January 1, 2017, the value will default to Not Available.

Fannie Mae Single-Family Disclosure Guide
Record Type Calculations
February 2025

Applicable Stratified Variable	
Quartile	For each mortgage loan characteristic where quartile levels appear, each loan in the pool is ranked from the highest to the lowest value. For example, in the case of Loan-to-Value (LTV) ratios, each loan in the pool is ranked from that with the highest LTV ratio to that with the lowest LTV ratio. The lowest LTV ratio would appear in the pool statistics under "MIN." The next figure in the quartile table for such mortgage loan characteristic is determined by counting the loans starting with the lowest value and continuing upward until the Investor Loan Unpaid Principal Balance (UPB) of the loans counted equals twenty-five percent of the Investor Loan UPB of all the loans in the pool. The value associated with the last loan counted appears in the quartile-level distribution table under "25%." Likewise, the next figures in the quartile-level distribution table are determined by again counting all of the loans starting with the lowest value and continuing upward until the Investor Loan UPB of the loans counted equal fifty percent of the Investor Loan UPB of all the loans in the pool. This process is repeated to determine the value in the quartile-level distribution table associated with seventy-five percent. The values of the last loan counted in each case appear in the quartile-level distribution table under "MED" and "75%," respectively. The highest such value for any mortgage loan in a pool appears in the quartile-level distribution table under "MAX."
Aggregate Loan Count	Count (Loans in Stratification)

A Mission Loan is a loan with a Mission Score equal to or greater than 1.		Numeric	3.2	6		Sum (Number of loans within the cohort where the borrower qualifies as a low income borrower / Mission Loan Count for the cohort)
MCD1-09	Affordable Rental Share	The percentage of Mission Loans within the cohort where the related mortgaged property contains at least one rental unit that is affordable to renters earning ≤ 80% of Area Median Income (AMI). A Mission Loan is a loan with a Mission Score equal to or greater than 1.		Numeric	3.2	6		Sum (Number of loans within the cohort where the related mortgaged property contains at least one qualified affordable rental unit / Mission Loan Count for the cohort).
MCD1-10	First-Time Homebuyer Share	The percentage of Mission Loans within the cohort where the borrower qualifies as a first-time homebuyer. A Mission Loan is a loan with a Mission Score equal to or greater than 1.		Numeric	3.2	6		Sum (Number of loans within the cohort where the borrower qualifies as a first-time homebuyer / Mission Loan Count for the cohort)
MCD1-11	Underserved Markets Share	The percentage of Mission Loans within the cohort where the borrower resides in a High Poverty Area census tract at the time of loan application. A Mission Loan is a loan with a Mission Score equal to or greater than 1.		Numeric	3.2	6		Sum (Number of loans within the cohort where the borrower resides in an underserved market / Mission Loan Count for the cohort)

XI - 285	Percentage Investor Loan UPB	For the stratified attribute, the percentage of the Investor Loan UPB for the loans in the security.		Numeric	3.2	6		
ID	Attribute Name	Attribute Definition	Enumerations	Data Type	Format	Max Length	Notes	Calculations
XI - 286	Record Type = 22	Borrower Assistance Plan Stratification		String		2		
XI - 287	Trust Identifier	The unique alpha and/or numeric designation assigned to each deal.		String		50		
XI - 288	Class Identifier	The unique alpha and/or numeric designation assigned to each sub-deal.		String		5		
XI - 289	Issuer	The name of the entity that issued the security.	FNM = Fannie Mae	String		3		
XI - 290	CUSIP	The unique designation assigned to the security by the Committee on Uniform Securities Identification Procedures (CUSIP).		String		9		
XI - 291	Security Identifier	The unique designation assigned to the security by the issuer.		String		6		
XI - 292	Borrower Assistance Plan	The type of assistance plan that the borrower is enrolled in that provides temporary mortgage payment relief or an opportunity to cure a mortgage delinquency over a defined period.	F = Forbearance Plan R = Repayment Plan T = Trial Period Plan O = Other Workout Plan N = No Workout Plan 7 = Not Applicable 9 = Not Available	String		1	The data in this stratification will be published on a one-month delay due to the timing of our servicing reporting cycle. For example, the values in this stratification published in July 2020 correspond to the delinquency status in the Days Delinquent+H552t Stratification published in June 2020. For non-delinquent loans, for which a Borrower Assistance Plan is not reported by the Servicer, this attribute will be defaulted to Not Applicable. The field may be populated if the loan is reported current in days delinquent stratification.	
XI - 293	Aggregate Investor Loan UPB with excess contribution percent	For the stratified attribute, the sum of the Investor Loan UPB for the loans in the security with excess contribution percent applied.		Numeric	14.2	17		
XI - 294	Percentage Investor Loan UPB with excess contribution percent	For the stratified attribute, the percentage of the Investor Loan UPB for the loans in the security with excess contribution applied.		Numeric	3.2	6
